

Offer
Commuting
benefits

**Do you support your
employees' travel to work?**

**We'll help you save
them money**

Transport UK partners with over 600 clients, offering season ticket **loans** that make commuting more **affordable** for employees.

We provide access to our online season ticket loan management solution, Let's Commute.

This enables, employees to request the ticket they require, for HR/Payroll to approve it & once approved, we will send the ticket loaded onto a smart card to the employee.

We then send the employer the invoice and detailed reporting to enable them to prepare salary deductions through payroll.
