Deep Learning

Deep Learning Approach: Our philosophy to education creates the foundation for success.

We know that the world is changing, and changing fast. We believe that the best way to prepare our young learners for the future is to help them develop skills and competencies that they can use in careers that might not even exist today. At every Ottawa Catholic school, we focus on helping your child develop global competencies: citizenship, character, communication, critical thinking, collaboration and creativity.

Ottawa, the heart and centre of it all

A cosmopolitan city with small town charm

Ottawa is a safe, bilingual city filled with parks, museums, galleries, sports teams, shopping, restaurants, the Rideau Canal, nearby sky hills and hiking, world-class hospitals, and embassies. Best of all, Ottawa offers the opportunity to prepare for and attend post-secondary institutions in the area.

With over 80 schools across Ottawa, OCSB provides English as a Second Language (ESL) support to all of our International Students at all of our schools from Kindergarten to Grade 8 and at six high school locations for Grades 9 to 12.
