

# ELECTRICAL TESTING

## Testing Charge

From July 1<sup>st</sup> 2012 all electrical contractors will be required to test their electrical installation to a minimum standard demonstrated in the Current EIA Electrical regulations e-guide also Incorporating BS 7671 17<sup>th</sup> edition. Therefore, after careful consultation with **Medtech Innovation Expo 2019** the following testing charges will now be put in place.

## Shell Scheme & Space Only Exhibitors

All items ordered from the official order form will now be subject to the Following testing charges Circuit Installed as indicated on the Electrical Order Form.

Lighting Circuits up to a Maximum of 1.2Kw @ £ 12.00 per Circuit Installed

Multipoint Power Circuits up to a Maximum of 2Kw @ £ 15.00 per Circuit Installed

## Direct Mains Only

All direct mains can only be ordered through The Freeman Company (UK) Limited and only after meeting the following criteria will charges be applied and mains installed;

- Copies of the relevant qualifications of any personnel responsible for the completion of the installation must be provided.
- The person carrying out testing must be qualified to the required standard.
- All qualifications, insurance and general details must be provided to The Freeman Company (UK) Limited where upon £150.00 administration fee plus the cost of the main will be charged. The Freeman Company (UK) Limited will then be able to collate the information and forward it on to **The Medtech Innovation 2019** H&S representative.

Following the completion of the installation by the allocated contractor the following must also be adhered to before energisation of the supply may be facilitated;

- The installation must meet the standards required by the regulations, however should the installation not meet these requirements The Freeman Company (UK) Limited are authorised to postpone energisation until they are met satisfactorily.
- If for any reason the electricians responsible for the installation cannot carry out the required Test & Inspection, The Freeman Company (UK) Limited may carry out this service on their behalf for the fee of up to a Maximum of £300.00 dependent on the Complexity of the installation to be Tested, which includes standby during the open period of the event. This will be in addition to any costs related to the mains supply or administration. Please be aware that any personnel involved will still remain responsible for their own installation

Should you require any further information or quotations please do not hesitate to contact a member of the related The Freeman Company (UK) Limited Electrical team, via email or phone, using the contact details provided on the official order form.
