<b>Submission</b>	<p>How did Fujita Health University accept around 200 people, infected with the new coronavirus, who were unable to be disembarked from the Diamond Princess ship?</p> <p>It was derived from the organizational culture driven by the leadership, and the entire workforce's shared mission to save human lives, unique to medical universities. The decision made to accept the patients within 24 hours of the first phone call shows how decisively Fujita management makes significant decisions.</p> <p>The excellent work of Fujita's staff and the fact that all of them were able to leave the hospital without any secondary infections was highly praised by government departments including the Ministry of Health, Labor and Welfare.</p> <p>Fujita Health University has grasped a valuable opportunity to conduct specific clinical research for the antiviral drug Avigan and vaccine development trials.</p>
