THE AWARDS ASIA 2021

Technological Innovation of the Year

Institution name	National University of Singapore
Submission title or project name	uNivUS - Uniting NUS Individuals
Nominee/key personnel	Mr Will Tan
URL	https://nusit.nus.edu.sg/digital-heartbeat/inaugural-issue/nus-pandemic-suite/
Submission	An integral part of NUS IT vision is to spearhead the development of a technology-infused environment on campus and provide a comprehensive application, computing and networking infrastructure to enable the university community to fully harness IT for effective teaching, learning, research and administration. uNivUS was conceived with students in mind, to bring them through their student life cycle via a unified portal that catered for essential information and services, with personalised user experience and necessary integration with key systems, plus serving as the primary communication channel for past and present students, all of which encompasses the vision of amalgamating lifelong learners. uNivUS aptly stands for "uniting NUS Individuals", and carries the bold mission of unifying the needs of both past and current students into a single platform.
