<b>Submission</b>	<p>This program aims to help underprivileged students from low income families by providing free food. The aim is to facilitate student life on campus.</p> <p>UniMAP creates permanent locations as food distribution hubs for the target group of students in need. The hubs serve as food storage stores donated by contributors such as supermarkets and individuals. The aid in the form of daily meals can ease the financial burden on students. The one-stop centres are also managed part time by paid, underprivileged students.</p> <p>The positive impact of this program is reducing and preventing issues related to student hunger, especially during the time of the Movement Control Order during the COVID-19 outbreak. The program is in line with Sustainable Development Goals (SDG) number 2 to eradicate hunger in a community. The impacts are measured from number of reported cases of student hunger.</p>
