Submission	<p>The Disability Support Service unit (DSS) was established with the objectives of providing educational assistance and facilitation services for students with disabilities. These services allow students with disabilities to join university education by providing them the opportunity to study any field of their choosing on-campus.</p> <p>The unit has promoted cooperation between teachers, students with disabilities, and relevant staff members to gain knowledge and understanding about providing services and reasonable assistance, such as sign language interpretation services, exam reading services, scholarship services, and registration services.</p> <p>DSS has a series of knowledge on the employment of people with disabilities, preparing students with disabilities before graduation, and educating employers on working with people with disabilities. The DSS has brought this informative material to an international forum at Hanoi University of Education, Vietnam to disseminate good practice.</p>
