Nominee/key personnel	President Shin-Jen Chang
URL	<a href="https://imagic.ntue.edu.tw/magic/en/index.php">https://imagic.ntue.edu.tw/magic/en/index.php</a>
Submission	<p>The National Taipei University of Education (NTUE) is Taiwan’s foremost university for elementary school teacher training. NTUE has been committed to the innovative nurturing of teachers to develop IT literacy and the ability to implement it.</p> <p>In 2019, NTUE introduced the iMagic Teaching Innovation Project, featuring a three-level teaching model: iMagic e-learning system, learner-center instructions and interactive classrooms.</p> <p>We encourage professors as well as student teachers to utilise the iMagic Teaching Strategy. Online iMagic e-Learning System accounts are provided to student teachers during their teaching internships. We collaborated with the Taiwan’s largest e-learning company to hold an iMagic Lesson Plan design contest.</p> <p>This project has been successful in enhancing the technological competence of future teachers, and contributed to the highest number of student teachers becoming qualified teachers. With these achievements, the iMagic project serves as a paradigm of innovative teaching and learning strategy for universities in Asia.</p>
