Submission	<p>The University of Exeter Business School took some huge steps forward in its mission to address the major challenges confronting businesses and society.</p> <p>It launched The Exeter Centre for Circular Economy (ECCE), a multidisciplinary research centre focused on creating new, sustainable economic models. ECCE was awarded £1 million to establish a research hub to tackle the use of plastics and plastic waste.</p> <p>The Business School's commitment to explore the links between ecology and economics was underlined by a £1 million donation from Vietnam-based asset manager Dragon Capital towards a new post in biodiversity economics.</p> <p>In recognition of its ongoing excellence in all areas, including teaching, research, curricula development and student learning, the Business School added accreditation from the Association to Advance Collegiate Schools of Business (AACSB) to its existing EQUIS and AMBA accreditations. This prestigious triple accreditation is held by fewer than 1 per cent of business schools globally.</p>
