| Submission | <p>The Chinese University of Hong Kong (CUHK), as a socially responsible institution, committed to the wellbeing of the global community and stands ready to initiate sustainable development through teaching, research and engagement.</p> <p>In its Strategic Plan 2021–2025, CUHK has identified environment and sustainability as a key research area and established five university social responsibility goals that actively respond to the UN Sustainable Development Goals. To translate social responsibility into action, CUHK faculty and students are passionately leading and engaged in a rich variety of impactful sustainability initiatives.</p> <p>CUHK was the first university in Hong Kong to pledge to become carbon neutral, by 2038. It is home to the Jockey Club Museum of Climate Change, the world's first museum dedicated to climate change communication and education.</p> <p>CUHK co-hosts the Hong Kong chapter of the UN Sustainable Development Solutions Network to create practical solutions towards sustainable development and social impact.</p> |
