Submission	<p>The University of Birmingham is in the midst of one of the most transformational campus redevelopments since the first phase of building was completed in 1909.</p> <p>The development projects, worth £1 billion as part of a 10 year campus investment, are creating outstanding new facilities for students, staff and the community. Recent buildings completed include a state-of-the-art library, world class sport and fitness centre and the transformational Collaborative Teaching Laboratory.</p> <p>Student engagement, sustainability, innovation and efficiency are integral to the Estates Office Strategy and this is clearly demonstrated in the team’s activities. Building Information Modeling and a common data environment are new tools being effectively used across the department, ensuring high quality projects delivered on budget and on time as standard.</p> <p>Our mission is to deliver a world-class university estate and experience for the benefit of our students, staff and visitors.</p>
