

# SOLENT UNIVERSITY

## *THE Awards 2019 – University of the Year*

Institution/Nominee	Solent University
Title	Transforming the University with our curriculum
Submission	<p>In 2017-18, Solent University initiated a university-wide curriculum review – a bold decision that would see the full course portfolio challenged. It involved everyone, working at pace to ensure the university is fit for an uncertain future. Using the curriculum as a catalyst for change delivered outstanding results and underpinned Solent’s status as a contemporary university that delivers on its promise for real-world learning.</p> <p>This transformative project involved over 315 academics, 30 professional staff and over 900 students who worked together to develop a new curriculum framework. They identified processes and new approaches that could be improved and implemented with immediate effect. This collaborative approach led to the delivery of our best ever benchmark results, including NSS, TEF and DLHE.</p> <p>The ‘real-world’ curriculum framework Solent now has in place further builds upon the institution’s unique, creative and applied approach to learning and teaching.</p>
