Submission	<p>Summer 2018 saw the University of the West of Scotland (UWS) open the doors of its new Lanarkshire campus – one of the UK’s most modern and inspiring learning environments.</p> <p>The culmination of a two-year project and £110 million investment, it represents a step-change in the delivery of higher education. A symbol of modern pedagogy, the campus embodies UWS’ purpose “to change lives, transform communities and encourage enterprise through outstanding, distinctive and progressive higher education.”</p> <p>A fundamental shift has taken place in how, when and where students learn. By challenging traditional modes of delivery and dependencies on formal enclosed spaces, UWS Lanarkshire has reimagined the learning landscape. Learning occurs in a technology-rich, immersive and interactive environment that is responsive to the ever-changing needs of graduates.</p> <p>UWS Lanarkshire has been designed to ensure that spaces are flexible and collaborative, blurring the lines between formal and informal learning environments.</p>
