Give more than a gift

Welcome to our Christmas gift range — full of joy and purpose.

At Social Supermarket, we believe in the power of everyday choices to drive meaningful change — and in the role gifting plays in building stronger relationships. Whether you're thanking clients, engaging teams or celebrating milestones, the right gift can spark connection, loyalty and pride.

That's why we've handpicked the best independent brands using their food and drink to tackle big issues — from food waste and homelessness to climate change and inequality.

Each hamper and gift box is packed with impact, flavour and feel-good purpose. Thoughtful treats from people doing things differently — so you can celebrate generously, gift meaningfully and keep the people who matter most feeling valued.

Here's to spreading joy and creating ripples of change,

Alex, Jamie & Matt
