

Our Services

With Pension Point you can feel safe in the knowledge that we go above and beyond for all our clients. Our service will provide your business with:

- A scheme health check to make sure your scheme is fit for purpose
- Certainty that you are meeting your Auto-enrolment responsibilities
- 100% Guarantee that you will save an average of 15% of your pension contribution or we won't proceed
- More money for employee's pensions every month at zero cost to you
- Enhanced employee benefit package that includes advice for your teams
- Zero cost if this does not work for you
- End to end support for you to get this thing done quickly and painlessly

Audit - Find any Problems

- Understand your pension scheme and where it might include accidental breaches.
- Identify any savings that might be made and show you how much correcting this might save you.

Compliance - Keep you safe

- Correct any unintentional breaches and make you pension fit for the 21st century.
- Ensure reporting and processing uses modern technology to guarantee you will comply fully in future.

Implementations -Execute the Plan

- Your savings are entirely down to how many of your team take up the offer. Our implementation process is slick and automated. Employee engagement is at the heart of what we do.

By re-structuring your auto-enrolment scheme you can:

- Save an average of 14% of your pension bill every month
- Enhance employee perception of the pension scheme and the benefit package
- Increase employee contributions into the pension at no cost to them or you
- Savings go straight onto your bottom line to be spent how you see fit

All of that being said, if like most employers this costs you time or money it gets moved to the 'nice to do' list. Our process makes the decision to proceed an easy one to take, in the words of one of our recent clients 'why wouldn't you do this, every one wins out?'

With that in mind, the only concern left is how much of your valuable time will this take. The answer in every case is very, very little. We work directly with your accountant or Payroll and HR departments to deliver without costing you more than a couple of short meetings.
