

Microsoft Teams Integration

Boost connections and employee engagement by adding the power of recognition to Microsoft Teams

Recognise and publicly celebrate great work as it happens without ever leaving Microsoft Teams. The seamless integration of Teams collaboration tools with Reward Gateway's real-time recognition helps shine a spotlight on the values and behaviours you want to see more of, while helping employees feel valued and more connected to the business and fellow colleagues.

Our Teams integration provides:

**Instant and
seamless
recognition**

**Ease
of use**

**Increased
visibility
of good
work**

**Time
savings**

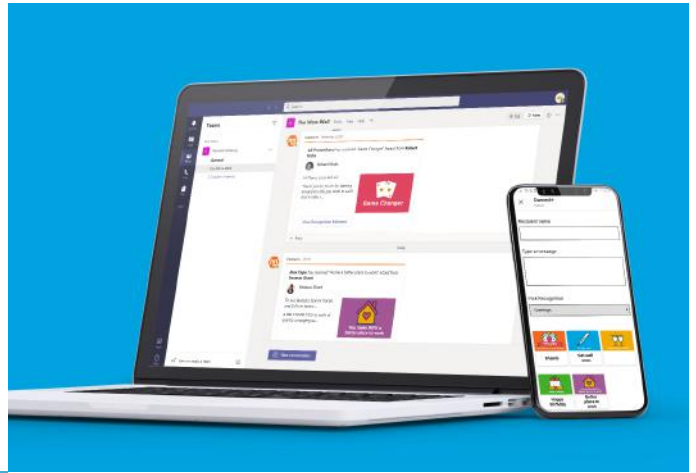

**Real-time
alerts**

Each integration is supported by a dedicated Reward Gateway Client Success Manager to ensure an effortless deployment and utilisation. Reward Gateway is also integrated with additional Microsoft solutions such as Microsoft Azure Active Directory and Microsoft Outlook.

Give your people a seamless recognition journey

We know that today employees must navigate multiple platforms and applications just to get their work done. At Reward Gateway, we've enabled the seamless sending and receiving of recognition moments, freeing up time and making everyone's life easier and more efficient.

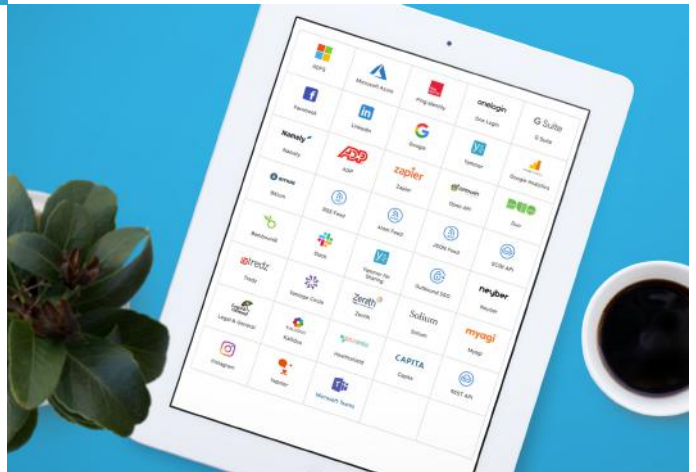

Never miss a moment with alerts

Employees will be informed immediately when they receive recognition, according to their own custom alert setup through Teams, whenever and however they prefer. They can receive on-site, email, browser and mobile notifications.

Put our self-service integration dashboard to work

Reward Gateway clients get exclusive access to our Integrations Dashboard housed on our content management system. Search for the Teams integrations on your dashboard to receive guidance and simple setup instructions to get started with your Teams integration.

“Creating a consistent culture and collaborating with more than 500 employees across these territories is critical to our success, and the Reward Gateway integration with Teams ensures our blogs and updates reach everyone, regardless of when or where they work.”

Rachel Kelly,

Internal Communications Specialist at Tombola
