

PRACTICAL ADVICE FOR PRIMARY CARE IN HEART FAILURE DETECTION AND MANAGEMENT - 2 PARTS

29th July 2020 &
6th August 2020

Virtual Meeting

7:00 PM until 8:30PM

A two part meeting specifically designed to address the needs of primary care during the COVID-19 pandemic and beyond.

• Speakers:

Professor Ahmet Fuat

*GPSI Cardiology and Darlington Primary Care Network Cardiology and Research Lead
Carmel Medical Practice*

Dr Matthew Dewhurst

*Consultant Cardiologist and Clinical Lead for Heart Failure
North Tees and Hartlepool NHS Foundation Trust*

Aim:

To enhance Heart Failure management in primary care for the benefit of our patients with chronic Heart Failure.

Objectives:

1. To update delegates on pathways and services available for patients with signs and symptoms of heart failure, during this challenging time and in the future
2. To update delegates on local and national primary care audit data
3. To update delegates on optimal strategies for the management of heart failure and how to achieve this in primary care with support and collaboration from secondary care services
