

GUT HEALTH PRODUCT DEVELOPMENT EXPERTS

Where scientific precision meets
commercial reality

THE CHALLENGE

Many probiotic and gut health ideas never reach market viability.

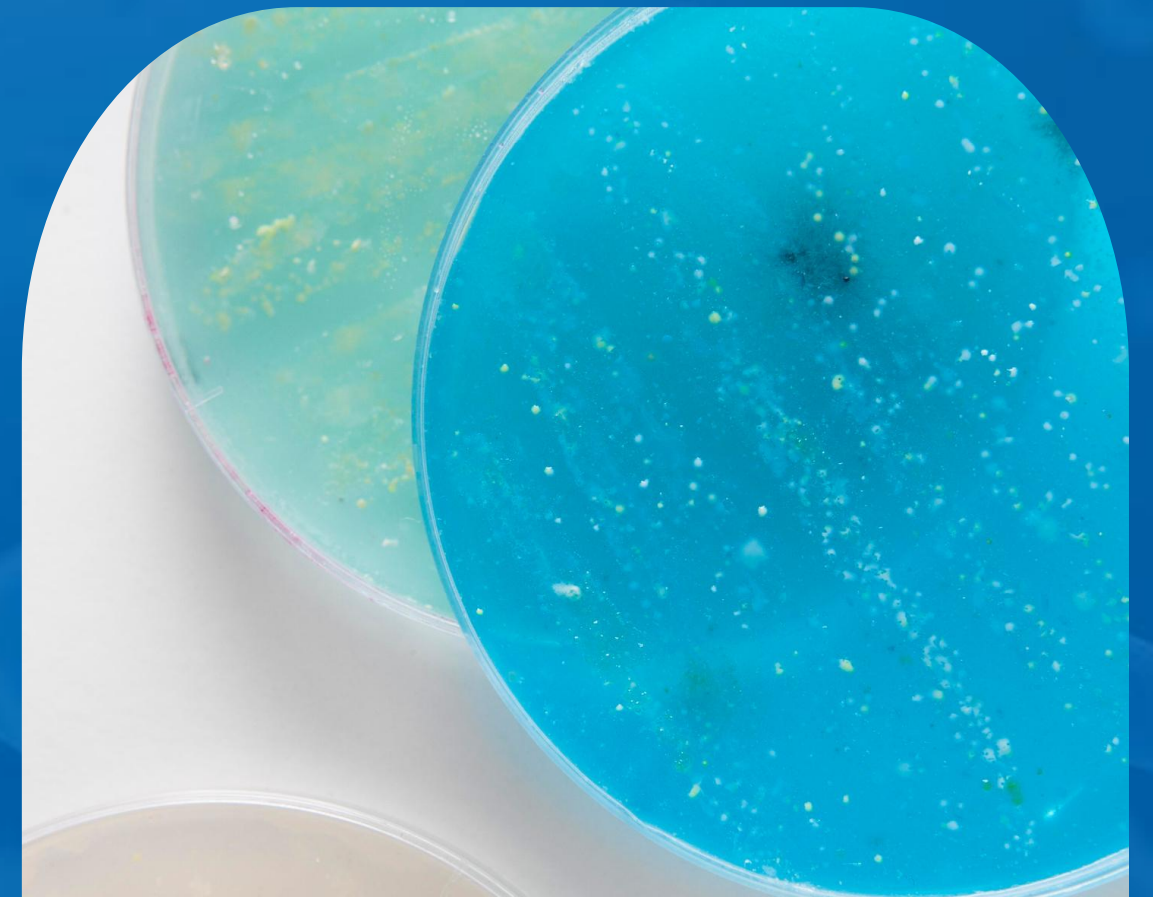

We bridge the gap between concept, formulation and launch...

WHAT WE DO

**Ingredient Selection
and
Formulation
Development**

**Prototype
Production**

**Compatibility Testing
and
Shelf-Life Studies**

WHY IT MATTERS

Because probiotic product stability is *science*, not luck.

We make sure your probiotic performs through its full shelf life...

OUR DIFFERENCE

01

Purpose built Formulation Innovation Centre with application and microbiology labs

02

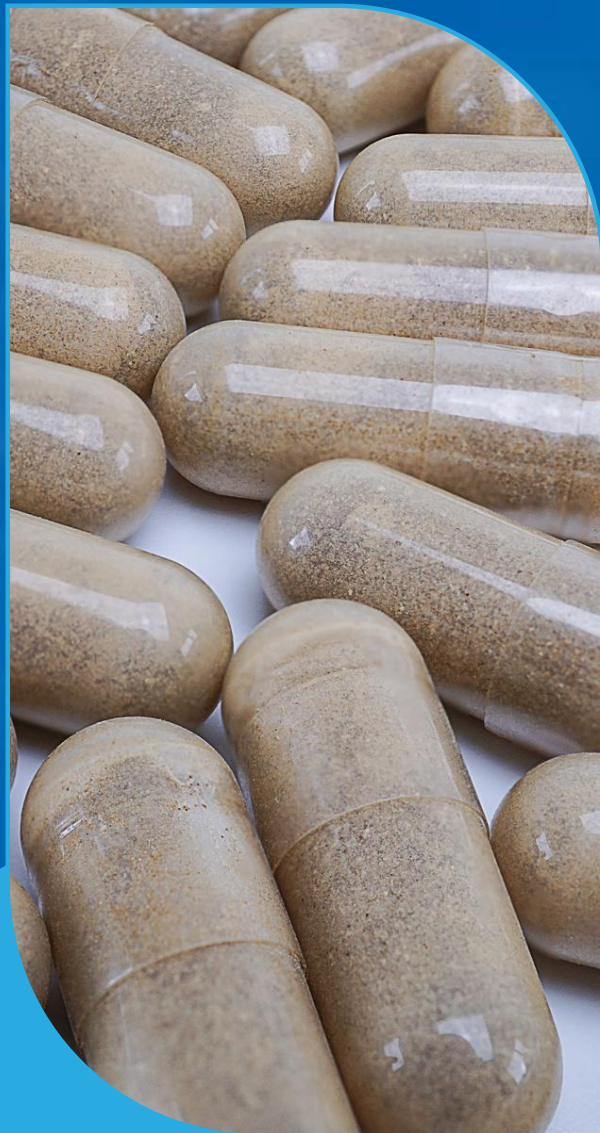

Based in Ireland – a global hub of excellence for microbiome research

03

Data-driven – all formulations tested in the lab

04

Expert-led – with over 30 years combined experience, our team knows probiotics!

**We turn complexity into
clarity for brands and innovators...**

**Partner with
Key2Biotics.
Your route from idea to
market success.**
