How we help customers

SCALE YOUR INFRASTRUCTURE WITH AGILITY

Design a **customized infrastructure configuration** that will support you as you scale. Plan out scenarios and get access to additional solutions that can **help you meet demand as your business grows.**

UNDERSTAND YOUR ROI

We provide complete visibility into the total cost of ownership (TCO) of cloud solutions, and can provide options for **maximizing the impact of your budget.**

REDUCE TIME-TO-MARKET

Our extensive experience in cloud native services, cloud agnostic tools and custom software development allows us to **cut the length of your design phase by up to three times.**

BUILD SEAMLESS INTEGRATIONS

Ensure a **smooth integration with the tools you rely on,** including Microsoft Power BI, Office 365, Dynamics 365, Power Apps, Flow and more.

ENHANCE DATA SECURITY

Multi-cloud strategy and on-premise infrastructure are key to best-in-class security. We'll help you **migrate your datacenter to an IaaS platform** like Azure, which meets international and industry-specific security standards.

BOOST OPERATIONAL EFFICIENCY

Migrating to cloud-based solutions can reduce the demand on in-house IT resources, empowering them to focus on strategic initiatives. A cloud solution can also provide a **unified view of your business that remote teammates and partners can access from anywhere, enhancing collaboration and productivity.**

Company highlights

2000+
top tech experts, middle and senior level

17
large delivery centres in eight countries

150+
active clients, including Fortune 500 companies

30+
years on the market

69
Net Promoter Score (NPS)

700+
projects delivered

ISO 9001 and
ISO 27001 certified

What's included in the service

Cloud strategy

Don't start without a roadmap. Our strategic guidance and expert planning helps you optimize costs and efficiencies as you build your cloud infrastructure strategy, with an eye towards future growth and scalability. We'll evaluate all options to help you find the optimal cloud solution for your specific needs and goals.

Cloud integration

Enhance your existing tech stack by embedding cloud capabilities in your existing solutions with seamless integrations.

Cloud migration

Move your on-premises apps, data, and other business elements from on-premises storage to a cloud computing environment.
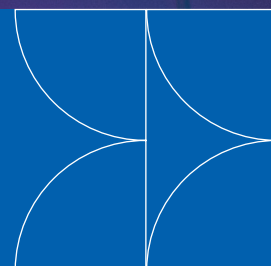

Big data and machine learning solutions

Tap into the limitless potential of machine learning with the ability to embed data models and analytics into your solution. Build predictive models and analyze scenarios, helping you to automate and future-proof your business.

Cloud security

Modernize your IT infrastructure with security policies, governance, and compliance guardrails that protects your customers and your business' data.

READY TO BEGIN YOUR CLOUD JOURNEY?
CHOOSE ELEKS

Industries we serve

ELEKS' cloud consulting services are a great fit for any organization that's ready to optimize efficiencies and improve performance through digital transformation. A few of our key industries include:

FINANCE
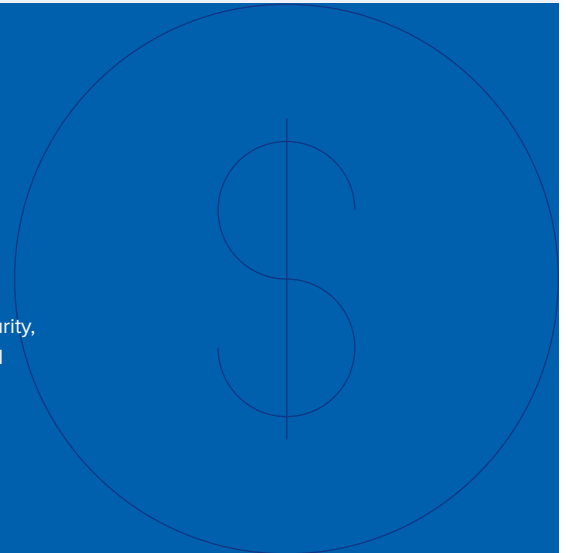

BETTER DATA INSIGHTS
Tap into data for regulatory reporting and compliance tracking, with opportunities to dive deep into predictive insights with advanced machine learning-based analytics.

OPTIMIZED RISK MANAGEMENT
Instantly identify new anomalies and map out risk scenarios to protect your business' and customers' data.

OPERATIONAL EFFICIENCY
Improve your data management and security, and optimize your total cost of ownership.

INSURANCE

FASTER DEPLOYMENT
Benefit from rapid deployment of new digital services with a lower total cost of ownership by migrating to cloud-based infrastructure that improves the scalability and accessibility of your insurance services.
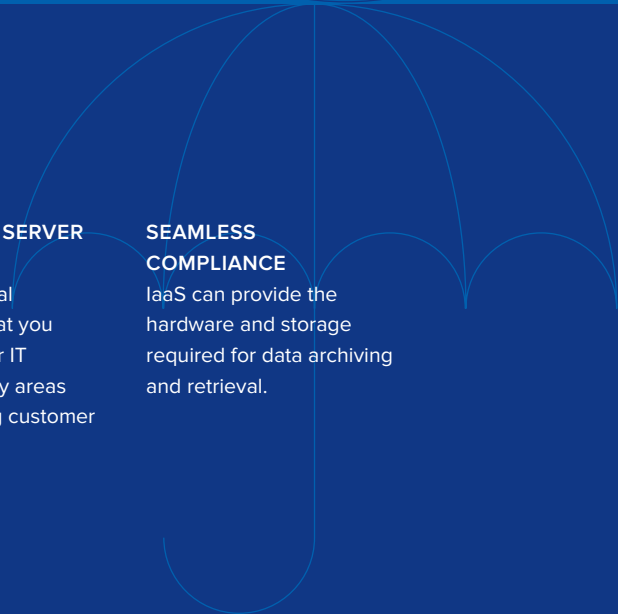

BEST-IN-CLASS SECURITY
Make use of robust security features and better resilience with proactive threat management and advanced disaster recovery.

STREAMLINED SERVER MANAGEMENT
Automate manual processes so that you can refocus your IT resources on key areas like modernizing customer experience.

SEAMLESS COMPLIANCE
IaaS can provide the hardware and storage required for data archiving and retrieval.

HEALTHCARE

SECURE PATIENT HEALTH DATA
Protect your electronic health records, email accounts, and other sensitive data with secure authentication and encrypted records stored on the cloud.

BETTER INSIGHTS INTO HEALTHCARE DECISIONS
Improve clinical decision-making and enable faster time-to-treatment with AI and machine learning integrations.

FLEXIBILITY TO SCALE AS YOU GROW
Scale to meet demand as your patient roster grows with flexible hosting and data storage solutions.

AGILITY TO MEET CHANGING REGULATORY REQUIREMENTS
Optimize your costs, security, and compliance to meet industry standards, even as they change over time.

Why ELEKS?

BEST-IN-CLASS STRATEGIC GUIDANCE

ELEKS' experts work with your team to understand your challenges, and architect a custom solution to solve them. Our team's experience includes cloud architecture, native services applications, security, and R&D – we'll bring together all of our recommendations to design **a solution that fits your needs.**

EXPERT CERTIFICATIONS
IN LEADING CLOUD SOLUTIONS

We have expert certifications in Google Cloud, Azure, and AWS, ensuring that we can bring together **the right mix of cloud-based solutions for your business** from any of our partners.
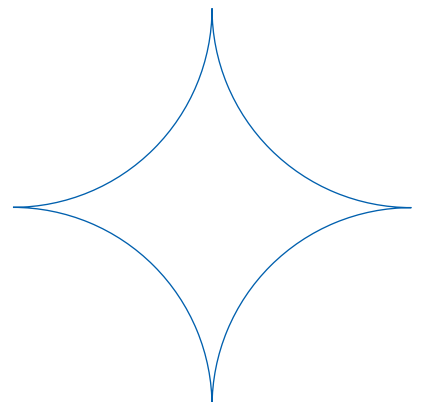

PROVEN METHODOLOGIES THAT DRIVE RESULTS

Our team has developed processes that **ensure project success** – on time, on budget, and based on industry best practices. Mitigate the risk of taking on a digital transformation project, and realize business value immediately.

EXPERIENCED WITH INDUSTRY REGULATIONS

We have **deep expertise in data compliance, application security, and regulatory requirements** that impact enterprise cloud strategies.
