Skype for Business /Microsoft Teams-tailored experience simplifies workflow

Conference phone

CP960

- Optimal HD Voice, full duplex technology
- 5" 720x1280 multi-touch screen, modern interface
- Yealink Noise Proof Technology
- 20-foot (6-meter) and 360-degree microphone pickup range
- Built-in Bluetooth 4.0 and dual band 2.4G/5G Wi-Fi
- Connect to PC via USB Micro-B port (Only for Skype for Business)
- Based on Android OS, upgradability of firmware to Microsoft Teams or Skype for Business edition

Desk phones

T58A

- Optima HD voice, HAC Handset
- 7" 1024 x 600 capacitive adjustable touch screen
- Yealink Noise Proof Technology
- Built-in Bluetooth 4.2 and dual band 2.4G/5G Wi-Fi
- 2 USB 2.0 ports, supports USB headset
- Dual-port Gigabit Ethernet, PoE support
- Supports expansion modules (Only for Skype for Business)
- Based on Android OS, upgradability of firmware to Microsoft Teams or Skype for Business edition

T56A

- Optima HD voice, HAC Handset
- 7" 1024 x 600 capacitive touch screen
- Yealink Noise Proof Technology
- 1 USB 2.0 port for USB headsets, Bluetooth dongle and Wi-Fi dongle
- Dual-port Gigabit Ethernet, PoE support
- Supports expansion modules (Only for Skype for Business)
- Based on Android OS, upgradability of firmware to Microsoft Teams or Skype for Business edition

T55A

- Optima HD voice, HAC Handset
- 4.3" 480 x 272 capacitive touch screen
- Yealink Noise Proof Technology
- 1 USB 2.0 port for USB headsets, Bluetooth dongle and Wi-Fi dongle
- Dual-port Gigabit Ethernet, PoE support
- Wall mountable
- Based on Android OS, upgradability of firmware to Microsoft Teams or Skype for Business edition

T48S

- Optima HD Voice
- 7" 800 x 480-pixel backlit touch screen, modern interface
- Calendar, Skype for Business conferencing, CAP, Boss/Admin, Hot desking
- Dual-port Gigabit Ethernet, PoE support
- Support expansion modules, Bluetooth, Wi-Fi
- Supports Office 365

Immersive sound for calls and music

A premium full-duplex experience

Yealink speakerphones support full-duplex technology, so calls sound their best on both ends.

Intelligent noise canceling

Enjoy crystal-clear sound thanks to the distraction-free noise canceling technology, so participants can focus on the call and catch every single word and idea.

Excellent sound performance

Built with wideband audio, acoustic echo cancellation, and Optima HD Voice, Yealink speakerphones provide exceptionally clear sound.
And you can also use your Yealink CP900 for listening to music.

How the 6-beamforming microphone works

The Yealink CP900 is designed with six directional microphones positioned around the base, which pick up sound from any direction in 360 degrees, so participants do not need to huddle round the speakerphone while speaking, enabling them to converse naturally in an immersive, flexible setting.

360°
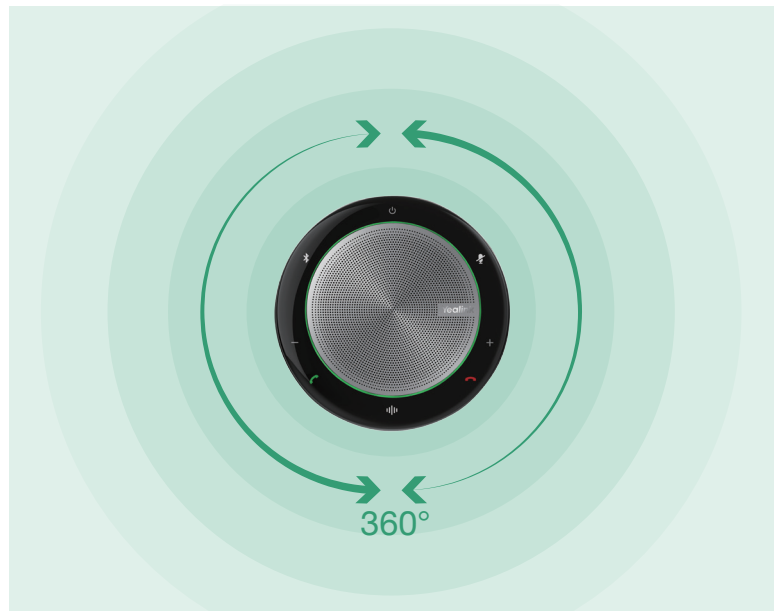

The green lines show the voice pick-up range of the Yealink speakerphone CP900, while the gray lines show the average speakerphone's.

Intuitive design and ease of use

Portable design

Yealink's CP700 and CP900 speakerphones have a lightweight design and are small and compact enough to carry in a laptop bag or backpack. (A travel case is also included.)

Intelligent connectivity

Yealink speakerphones can connect to PCs, tablets, and smartphones via 1. the USB cable, 2. Bluetooth, and 3. the BT dongle, supporting up to two simultaneous connections.

Touchable smart button

Multiple buttons for full call-control compatibility offer a low-learning-cost experience and call effectiveness.

Yealink CP900 and CP700 has two separate editions for UC and Microsoft Teams. Each edition has a different firmware and appearance. Yealink's UC edition speakerphone is compatible with Google, Zoom and most UC platform providers, and also has a dedicated button to access voice assistance. Yealink's Microsoft Teams edition speakerphone is well-integrated with Microsoft Teams, and comes with a dedicated Microsoft Teams icon to access Microsoft Teams functions.

Yealink speakerphone for Microsoft Teams

· A flashing light indicates a notification for an unanswered call, a voice mail, or an upcoming meeting from the Teams application.
· Press to activate the Teams application.
· Press to access the Cortana intelligent assistant.

*The above Teams-dedicated features are supported by the CP900 and CP700 Teams versions.

Yealink Device Management Platform

Managing Yealink video and voice communication endpoint devices
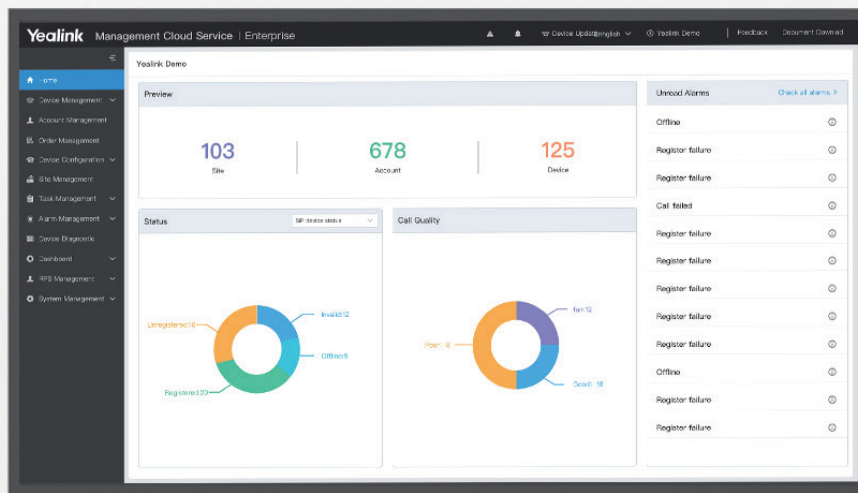

The Yealink Device Management Platform offers a comprehensive management solution that includes the following key features: unified deployment and management, real-time monitoring with alarm, and remote troubleshooting. Users can choose between the cloud-based solution YMCS and the on-premise solution YDMP.

Key features:

- · Remote diagnostics and remote reset/reboot
- · Timer tasks with rules
- · Graphical QoE and alarm management

- · Easy deployment and remote management
- · API for deep integration with PBX
- · High security and reliable cloud servers distributed in the United States and Europe

Benefits of the Yealink Device Management Platform

Remote Diagnostics
Get the debug files with one click, which, together with remote reset/reboot, reduces after-sales service costs and improves the efficiency
Timer Tasks With Flexibility
Schedule one-off or recurring tasks at pre-defined times and intervals

Call Statistics With Real-Time Alarm
Graphical QoE and real-time alarm notification with rules

Unified Deployment & Management
Bulk configuration, and customization by region/department/model

Remote Diagnostics

It is easy to get the debug files with one click or separately (there are 7 types of diagnostic files) to locate the problem and fix the issue quickly. Together with remote resets/reboots/configurations, this reduces after-sales service costs and improves the efficiency.

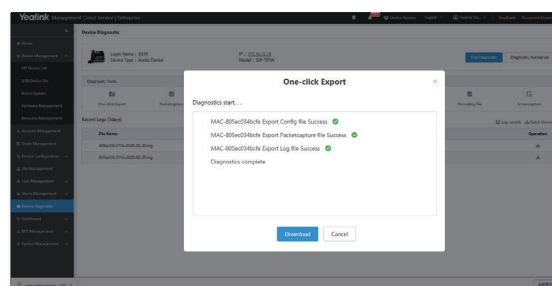

Timer Task With Flexibility

Set up scheduled tasks to facilitate one-off or recurring management operations at specified times, including configuration updates, push messages, resets, reboots and so on.
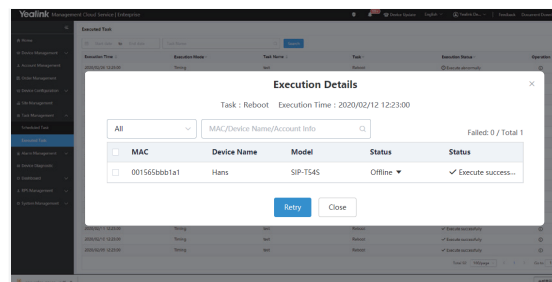

Call Statistics With Real-Time Alarm

Graphical statistical analysis with call details, such as packet loss. A total of 23 real-time monitoring alarm types are available for sending alarm notifications immediately when devices are running abnormally.
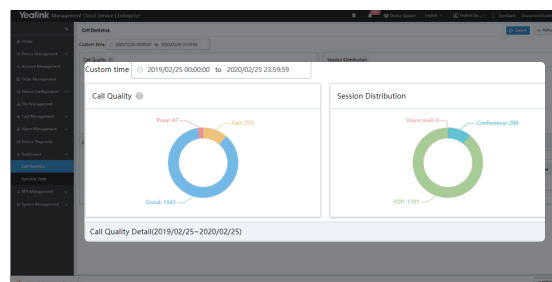

Unified Deployment & Management

Divide devices into different groups or sites and manage them with difference templates. Upload resources (such as language files) for configuration changes and firmware upgrades.
