

# DUOBOARD

**Experience  
Limitless  
Collaboration**

## Features

### Video Conference Anytime, Anywhere.

BenQ DuoBoard features an embedded Full HD camera, array mic that allows for direct video conferencing without troublesome preparation and cable cluster.

### A Screen For Every Meeting.

Designed to integrate seamlessly into your workplace. DuoBoard allows connectivity to any device for a one touch meeting experience.

### Wireless Connectivity With InstaShare.

BenQ InstaShare software is designed for wireless presentation supporting two-way touch control on windows and macOS and is capable of 9 way split screen.

## Collaboration+

### Duo Boards:

Create one continuous collaboration workspace by pairing and positioning 2 boards together.

### Duo Windows:

Run 2 applications side-by-side on a single board for effective multi-tasking.

### Duo OS:

Dynamic picture in picture. Allows you to layer any input over the BenQ launcher.

### Duo Users:

Collaborate at the same time on the same screen with 20 point multi-touch PCAP touch technology.
