

Maximize your ROI from Cloud.

Your cloud transformation journey doesn't have to be a tangled web of complexity.

From cloud migration, to building distributed systems, and everything in between, we'll work hand-in-hand with you to "cut the Gordian knot" and successfully implement a program tailor-made to your needs.

LET'S TALK →

Whether you work with Google Cloud, AWS, or Microsoft Azure, you'll see meaningful cost savings and cloud optimization within 90 days of being onboarded.

Tap into Deep Engineering Expertise at no additional cost

Working with DoIT means that you get unlimited cloud consulting and engineering support from dedicated Sr. CRE's who've seen everything under the sun cloud.

Whatever your team needs — technical support, architecture reviews, migration assistance, deployment planning, "best practice" sessions — consider us your trusted co-pilot for all things cloud.

Control your Cloud Costs.

Cost optimization tooling available at zero cost:

reOptimize

Get ML-assisted insights on your GCP costs with the leading cost management and cloud optimization platform.

superQuery

Leverage the power of BigQuery at peak efficiency with the only IDE and query optimization engine built specifically for Google BigQuery.

Quick Facts

Founded	2011
Accolades	6x Google Partner of the Year 8 years as Google Cloud MSP
Support	98% CSAT 35 minute avg. response time 92% resolution without Google
Locations	San Francisco · Tel Aviv · Austin · New York · London · Santa Clara · Los Angeles · Melbourne · Paris · Berlin

Certifications

	24x Google Certified Cloud Architects 18x Google Certified Data Engineers 4x Google Maps API Developers 6x G-Suite Administrators
	14x Kubernetes Administrators 2x Kubernetes Trainers (30 globally) 1x CNCF Ambassadors (87 globally)

Your GCP experience enhanced

Eliminate unnecessary cloud costs

Get instant visibility into your cloud costs without wasting agonizing hours scanning through GCP bills. Saving DoiT customers \$10M+ annually, [reOptimize](#) helps you slice and dice your cloud spend and shine a light on cost and performance optimization opportunities.

Leverage BigQuery at peak efficiency with superQuery

Enable your data team to do their best work yet with the only IDE tailored for the needs of BigQuery users. Paired with a built-in query optimization engine, [superQuery](#) helps teams harness the power of BigQuery at full capacity while keeping costs and resource usage to a minimum.

Build, run, and scale Kubernetes with confidence

Operate an agile Kubernetes infrastructure knowing you're backed by folks who helped build Kubernetes itself. Your engineers should be free to focus on adding new features and products, not worrying about infrastructure or asking DevOps for help. DoiT helps you ensure that with a Kubernetes deployment customized to your needs.

The highest standards. The happiest customers.

Aviad Diamant
Director of IT Operations
eToroX

"From its swift onboarding process, to its ability to support us at any level, at any time, and for every requirement. We work with DoiT as an ongoing partner to make decisions and plan ahead. The team helps connect our needs to the solutions that Google Cloud can provide."

Jeff Sheldon
VP of Platform & Architecture
Recurly

"Having DoiT as a knowledge partner throughout the process was fantastic. DoiT helped us better understand our challenges and goals and provided effective best practices to keep us moving in the right direction."

Sergei Koren
Production Architect
LivePerson

"DoiT International delivered us a roadmap for Kubernetes. So we knew what to expect and when to expect it. In addition, almost every week for the past year, we have had workshops with their team to discuss features and implementation."
