

IT FASTER THAN THE SPEED OF BUSINESS

The business landscape is changing radically, driven by advancing technology, economic volatility, ongoing pandemic effects, political strains, and a global talent shortage. Businesses must accelerate their operations and be ready for anything. As the backbone of any organization, IT is at the forefront of handling growing pressures to keep pace and must operate faster than the speed of business—made possible with a comprehensive automation strategy.

Resolve Systems helps enterprise technology teams worldwide achieve agile operations with industry-leading intelligent IT automation. Resolve's solutions are purpose-built for IT, empowering teams to become the engine that drives business goals. Organizations use Resolve to automate IT operations, service management, network operations, cloud operations, and enable Centers of Excellence to orchestrate enterprise-wide automation with.

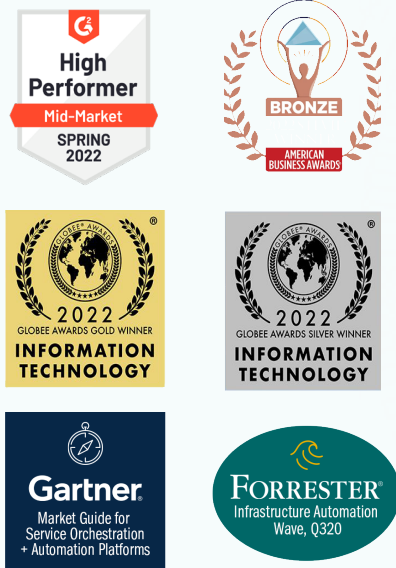

PURPOSE-BUILT INTELLIGENT AUTOMATION FOR IT

- » **See fast results** with ready-to-use SaaS solutions: Out-of-the-box accelerator packs delivered in a no/low code experience to start automating immediately
- » **Integrate with your existing IT systems:** Hundreds of pre-built integrations along with the ability to add your own to integrate and orchestrate with existing IT infrastructure
- » **Scale easily** from simple tasks to the most complex processes: One powerful platform to orchestrate all IT use cases

RECOGNIZED INDUSTRY LEADER

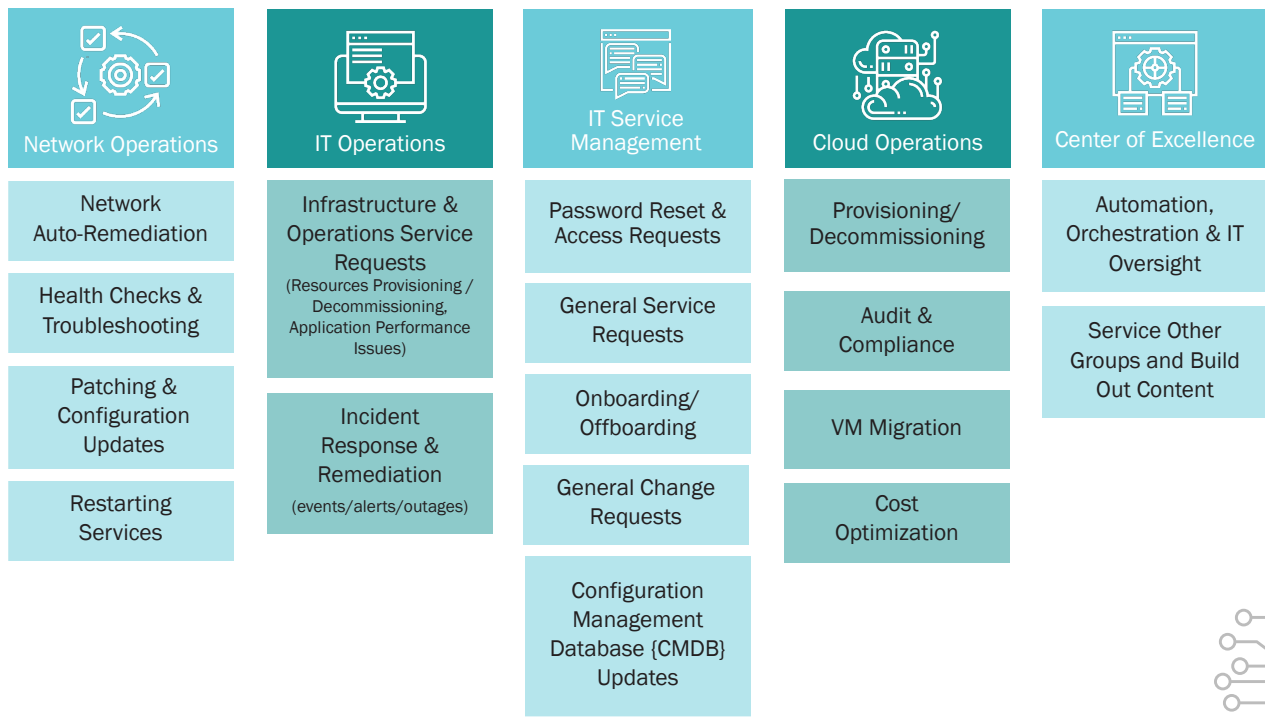

AUTOMATION FOR EVERY IT TEAM

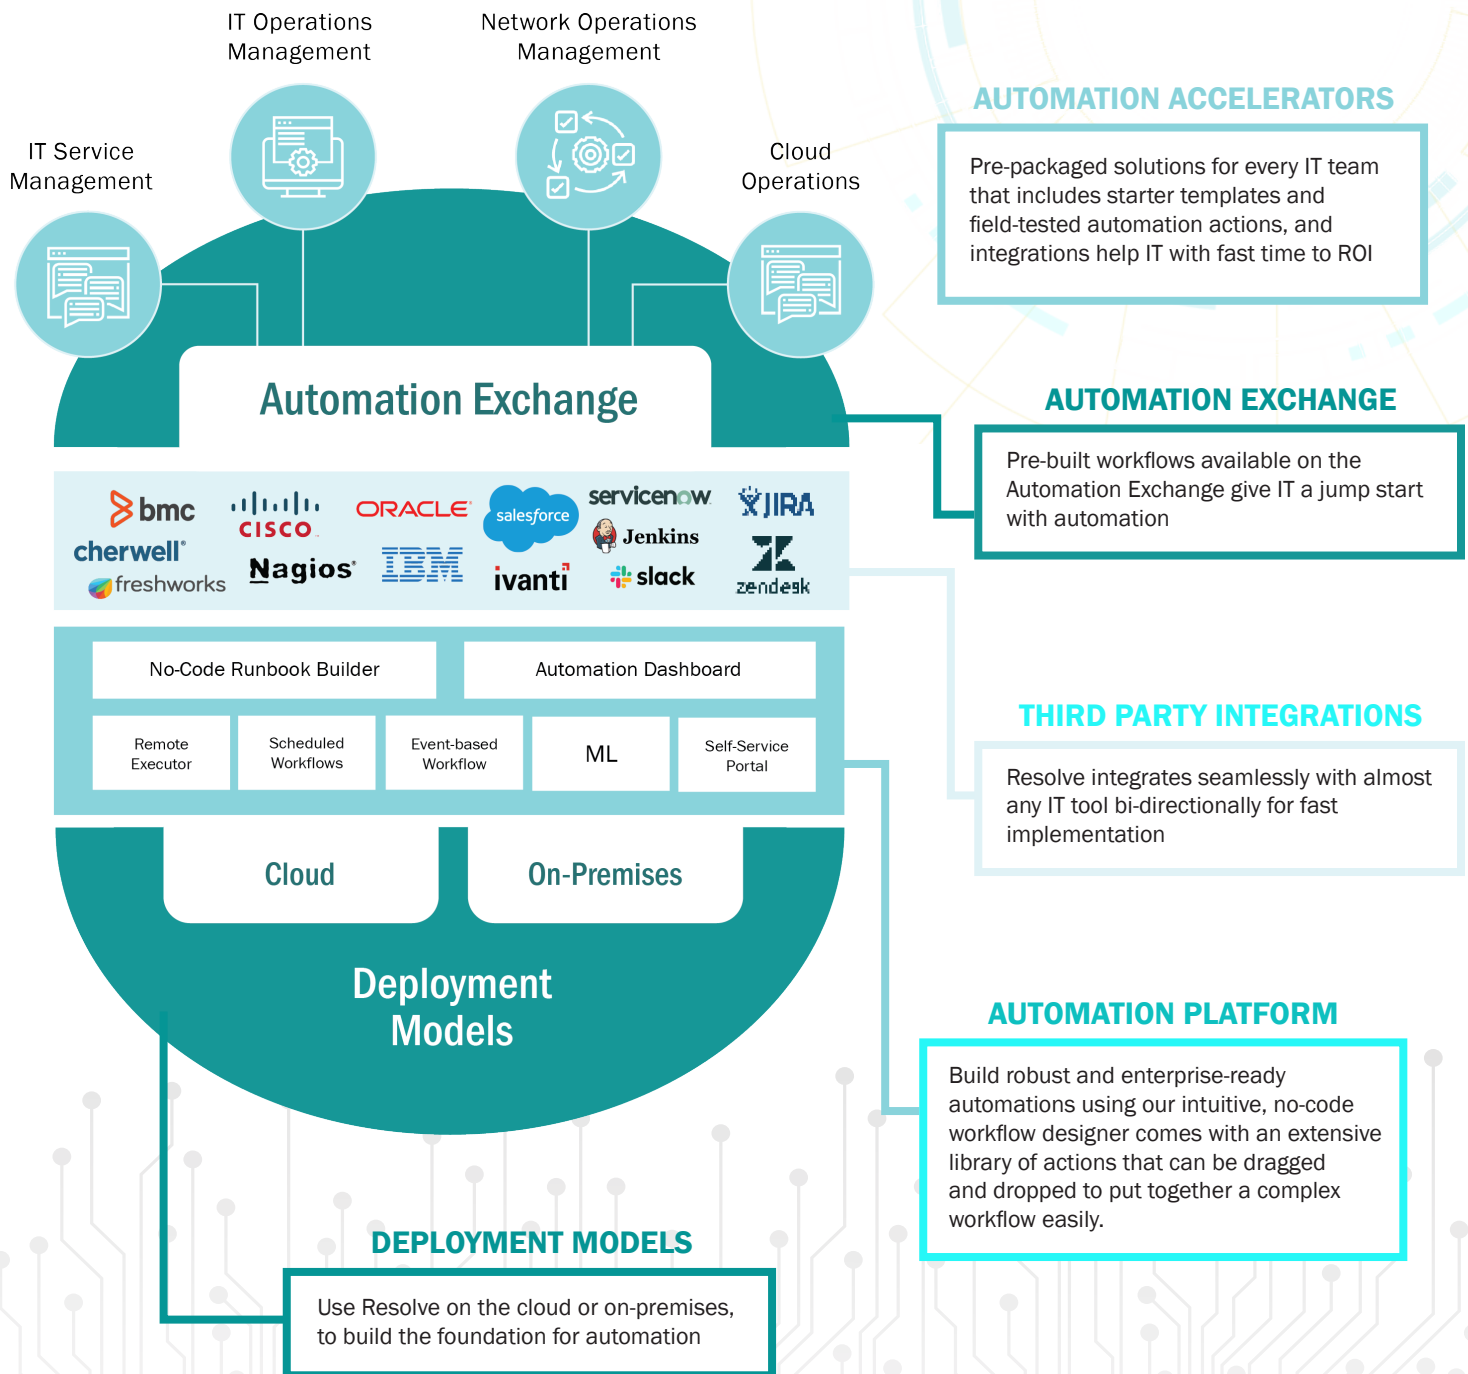

Resolve overcomes IT silos and offers the flexibility you need to automate everything from the simplest, high-volume tasks to the most complex processes across entire IT ecosystems, wherever you sit in IT, whether IT Operations, IT Service Management, Network Operations or Cloud Operations. Automate away your most common tasks or orchestrate your existing scripts and workloads to speed up resolution and free up resources for higher value impact.

No matter how complex the use case is be it a simple, but high-volume one such as password reset, onboarding/offboarding or a complex use case such as event auto-remediation, our automation platform empowers IT teams to automate away their most high-volume tasks giving back precious time to focus on what they do best.
