Logitech Rally Bar

All-in-one video bar for medium to large rooms.

Looks brilliant

An innovative dual-camera system with optical zoom and an Al Viewfinder delivers fluid, cinematic video in medium and large rooms.

Sounds Awesome

Rally Bar's advanced audio engineering delivers powerful, room-filling sound and makes sure every voice is clearly heard.

Compatible with your platform of choice

Start your meeting with just one touch, seamlessly connecting Rally Bar to your preconfigured room solution.

Take control of your technology

The beauty of Clevertouch lies with our complimentary, award-winning software platform ClevertouchLive. Trusted by thousands of professionals, ClevertouchLive controls all of your Clevertouch products from one central place. IT departments can update apps or the latest firmware and troubleshoot without leaving their desks, and administrators can share attention-grabbing content, instant messages, and company-branded launch screens across your devices all within a matter of a few seconds.

Our technology works better together

At Clevertouch Technologies, we've developed a truly unified communications platform that is free from frustrations of incompatibility. Clevertouch products allows users to connect and collaborate no matter what device they are using and their choice of communication channels.

Huddle Room

A hide away from the busy office environment for small groups discussions and sharing of ideas. These small informal meetings are perfect for video and audio conferencing with one-touch to launch a Zoom, Webex or Teams call.

Meeting Room

The perfect meeting room experience provides a hub for collaborative group work, both for those in the office and those virtually. The well-designed meeting room should be adaptable for you users, accommodating the use of personal devices and walk-in-and-use technology and include, large presentation screens for connecting remotely and collaborative work, access to crystal clear audio, and quick-start launchers.

Boardroom

The setting for key decisions and big ideas by senior management, the space, and technology of the boardroom should be sophisticated and be easy-to-use for all. A meeting space where professionals collaborate and present from multiple screens and facilities with wireless screen mirroring interactive whiteboard for brainstorming ideas, and intelligent sensors to keep track of the room's temperature, air quality, and more.

UX Pro Gen 2

Designed for hybrid meetings, UX Pro combines the power and security of an Intel OPS Windows 10 Pro PC, with a sleek design for one-touch UC and VC applications.

Customise your home screen

When the screen powers on the home screen is completely customisable, so you can add your company branding, logos and news. You can choose the applications you see on launch, be it UC platforms such as Zoom or Teams, or collaborative workflow apps such as Trello or Miro. You can also sync with calendar apps so that the days meetings can be shown on screen.

Networking and security

Our touchscreens are designed to integrate with your current system set up. With remote management tools, increased security and network options. Settings can be locked down to create completely secure connections.

Screen mirroring

Any device can mirror content to the UX Pro Display. Whether meeting attendants come in with their phone, laptop or tablet, they can connect to UX Pro, without needing to plug in or download an app. Clevershare screen mirroring is compatible with Android, iOS, Windows and Chrome devices.

Add any app or software

With an optional slot-in Windows 10 Pro Intel® Core™ i5/i7 PC, you can load your existing apps and software from your network, enabling you to collaborate securely across the globe, and access the same features as your colleagues, wherever they are based.

Live Rooms

Live Rooms, versatile room booking system.

- Enterprise room booking system
- Flexible digital signage system
- Connects to Clevertouch Live for digital signage alert messaging
- Personalised branding for company or visitor logos
- Integrates with Microsoft Exchange or Outlook 365 Calendar for desktop to display booking management
- Reduces labour time putting up notices on meeting room doors
- Reduces time locating availability meeting room space
- Instantly schedules and reserves the room
- Displays availability with green light when available, red light when in use
- Customisable default timing to 'check in' to the room before reverting back to available
- Enable rooms to be returned to available from the source if meetings finish early
- Real time summary of bookings to display on LFD for at a glance availability
- Analytic reporting capability

Meetings at a Glance

With ClevertouchLive Room Booking Software you can show all of your meeting spaces on one screen, and display this at multiple signage points around the offi ce. A good example of placement would be an at-a-glance screen in the reception area to display an instant overview of which rooms are free and who is in the building.

CM Series

Versatile and innovative, transform your space with Clevertouch technology. Commercial display screens with inbuilt Digital Signage and AirServer.

Discover the powerful brilliance of the CM Series commercial screen. These versatile screens push the boundaries enabling you to display communications across your workspace and screen share content from your personal device for dynamic meeting presentations.

AirServer

CLEVERSHARE®

Collaborate With Ease - connect up to 50 devices to share images, video, and audio directly to your Clevertouch screen.

With touch-back for two-way control, the presenter has full control over what is shared and can show 9 screens simultaneously, increasing collaboration and participation within every session.

Ultimate flexibility Share Content with Any Device

Up to 50 devices can connect with the Clevertouch screen and share content - images, video, and audio. Now with touch-back for two-way control. The presenter has full control over what is shared and can show up to 6 device screens simultaneously, increasing collaboration and participation within every session.

Control wherever you are Clevershare App

Any device can download the Clevershare app and connect instantly by typing in the code on the Clevertouch screen. Clevershare App is free to download and compatible with Android, Windows, iOS, and Chrome devices.

Sharing made easy Clevershare Dongle

Use the USB-C Clevershare dongle to share content. No need to download any app or driver, so ideal for companies that do not allow downloads to devices.

Safe, secure, and simple How to Connect

You can connect via the Clevershare App if your device is on the same Network as the Clevertouch. Use Advanced Mode for additional encryption and dual sub-networks. There is a Hotspot option if you are unable to use the network.

Connect without compromise Chromecast and Airplay

There is an optional button you can swipe in the settings that will allow you to natively connect your device this way.

Control when you need it Mastering Mode

This optional mode will allow you to manually accept or reject from the Clevertouch screen when someone attempts to connect via Clevershare.

Clevershare Hub

Clevershare Hub is an all-in-one, wireless screen sharing solution for any display. Connect effortlessly and mirror content from any device to encourage collaboration and participation.
