WHO WE ARE

The only platform that lets you complete **design, proposal, and project management** in a single, cloud-based ecosystem. With **XAVIA, the AV industry's first ever AI Agent**, we're revolutionizing AV processes forever.

Whether you're planning a project, designing a system, or closing a deal, XAVIA ensures you stay ahead with **smart recommendations, real-time insights, and task automation,** all accessible through **chat or voice commands.**

From the first product added to your BOM to the final project handoff, XAVIA helps you achieve **speed, accuracy, and efficiency,** without using multiple, generic tools.
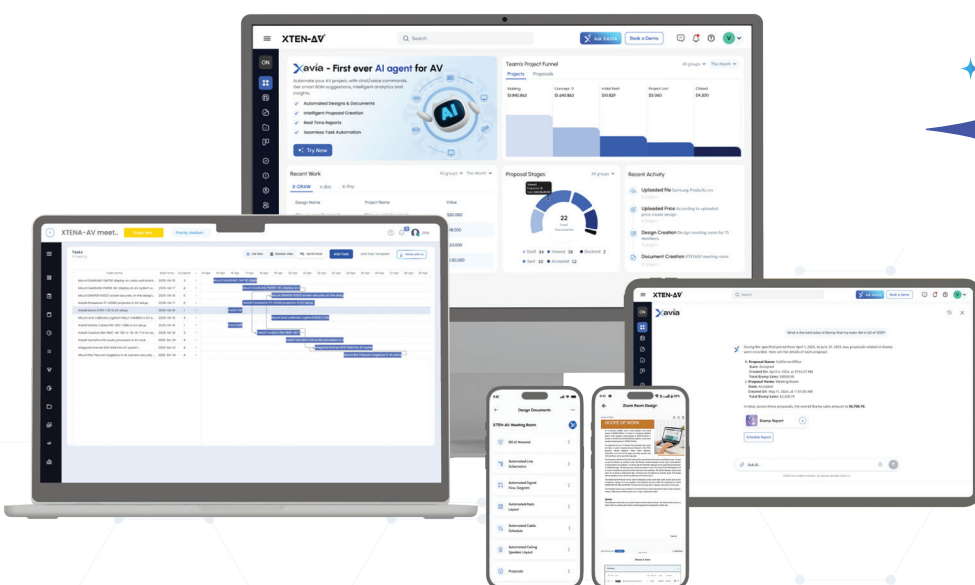

WHAT WE DO

With XAVIA, you make AI work for you.

Just give a voice or chat command—and XAVIA takes over the execution.

- Cut down repetitive tasks and reduce the risk of manual errors
- Minimize tool-hopping by consolidating your workflow with AI
- Speed up the entire process from design to delivery
- Focus on creativity and strategy—not on operations

The power of AI in your hands—**just say what you need, and let XAVIA work for you.**

Meet Xavia

AI Industry's first ever AI Agent

Automate every single task, **Just Ask XAVIA** using voice or chat commands!

AI-powered Product Recommendation

XAVIA automates BOM creation based on your design intent, preferences, and requirements, along with smart product recommendations.

AI-generated Drawings and Designs

XAVIA auto-generates Line Schematics, Floor Plans, SFDs, Elevations, and more; using XTEN-AV's patented design automation engine, upon simple voice commands.

AI-generated Proposals

Convert designs into polished, client-ready proposals in minutes. Eliminating the need for Word, Excel, or third-party e-sign tools.
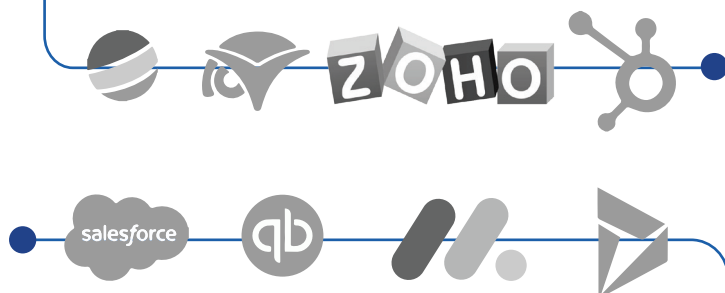

AI-powered Project Management

Want to know how many proposals closed last quarter? Which products are used most often? Get detailed insights and trend reports—so you're always in control of your data.

AI-generated Reports and Insights

Create tasks, assign team members, and track progress, with a single command. XAVIA keeps your project on schedule, on budget, and fully aligned across departments.
