

# TASTE D'NATION

**One App.  
Diverse Destinations.**  
Tap into cultural cuisine from  
every corner of SA.

## Kasi to burbs, we deliver.

In South Africa, locations aren't just dots on a map. They are **flavour zones**. From Durban's spicy bunny chow to Cape Town's iconic Gatsby. **Mr D** is the middleman that bridges the gap, not only between **diverse dialects** & dishes but also **destinations**.

The app offers customers a chance to discover options beyond their location or what they call home. It allows them to purchase their usual preferences (traditional staples or SA's most-loved products) whilst seamlessly exploring meals & must-haves from other cultures. This makes discovering South Africa's diverse food and shopping scenes hassle-free.
