

Energy from Waste

Middle East

Dubai 24-25 November 2025

Developing, delivering and operating world class waste to energy, waste to X

LAUNCH EVENT 2025 POST -EVENT REPORT

www.efwconference-me.com

THANK YOU TO EVERYONE WHO ATTENDED EFW ME 2025

2025 marks the conference's first ever year, illustrating the global development of waste to energy and its importance in sanitary waste management and energy production, and its increasing significance in decarbonisation and the circular economy, as waste derived gasses, fuels and SAF grow in importance.

Over 200 attendees from 24 countries came together in Dubai, from 24-25 November 2025. This included 47 expert speakers, 10 world class sponsoring and exhibiting companies and over a hundred delegates.

Key topics included:

- **The policies, structures and regulations needed to drive investor confidence**
- **Developing partnerships and business models**
- **Securing investor buy-in and aligning stakeholders**
- **Optimising the value of waste as a resource, through sustainable, multi-treatment approaches**
- **Delivering a project on the ground – lessons learnt in construction, engineering and technical feasibility**
- **Asset optimisation – ensuring best ROI, high performance, and developing internal knowledge and skills**
- **The plant of the future – technical developments for highest possible efficiency**
- **Decarbonisation – the opportunities for Carbon Capture and Storage**
- **Waste to high value outputs – developments in waste to SAF, waste to hydrogen, waste to X**
- **The development of RDF / SRF markets – a route to decarbonising other sectors, and a pathway to high value outputs**

SPEAKERS INCLUDED:

Ahmed Al Kayyoomi
Executive Director, Strategy and Business Performance, Tadweer Group

Aidan Kennedy
Plant Director, Sharjah Waste to Energy Plant, Veolia

Bruno-Frédéric Baudouin
CEO, Kanadevia Inova

Catherine Workman
Partner, Head of Middle East Region, Pinsent Masons

Dipak Sakaria
Energy Transition Expert – Advisor, UAE Ministry of Energy & Infrastructure

Edward Nicholas
CEO Development, Tribe Infrastructure Group

Eng. Mohammad Ahmad Al Rayees
Director – Waste Strategy & Projects, Dubai Municipality

Eng. Salem Mubarak Al Braik
Division Director – Waste Management Environment Quality, Environment Agency – Abu Dhabi

Giuseppe Musico
Head of Business Development, Emirates Waste to Energy

Hamza Al Hashemi
CEO, Emirates Waste to Energy

Jan Teir
Senior Chief Project Manager, Ramboll

Romain Kao
Bid Manager, Besix

Roni Araiji
Managing Director, Middle East, Kanadevia Inova

Sultan Saud Alsaif
CEO, TerraFuel (a SIRC Subsidiary)

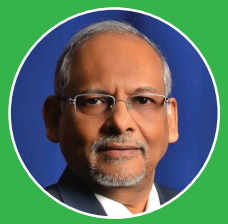

Stefan Barrow
Director, Infrastructure, Structured Finance Office for EMEA, MUFG Bank

Stefan Kipp
Executive Managing Director, AlBihouth Waste to Energy Project Company L.L.C

Tim Clarke
CEO, WWMC

Dr Udayan Bannerjee
Sustainability, Decarbonisation and Circular Economy Specialist

SPONSORS AND EXHIBITORS

HEADLINE SPONSOR:

Shoal

GOLD SPONSORS:

The Global Waste-to-Energy Research and Technology Council (WtERT®)

MEDIA PARTNERS

Waste & Recycling Magazine

Waste Management World

ATTENDEES INCLUDED:

Energy from Waste Middle East 2025 illustrated the dynamism and growth of the waste to energy sector, and its vital role in the drive to net zero and the circular economy.

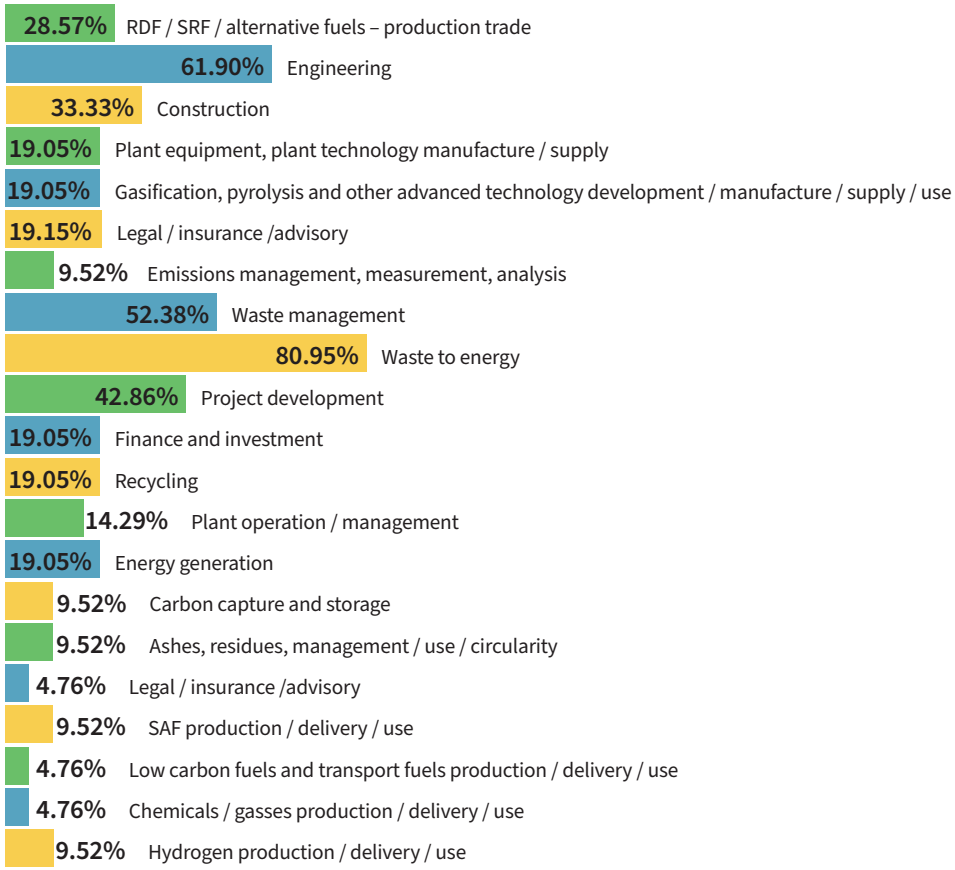

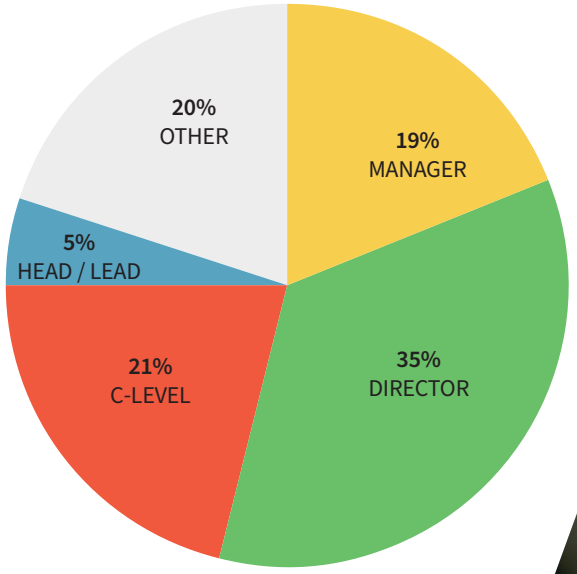

AUDIENCE BREAKDOWN

With over **200 attendees**, including 8 sponsoring companies, 2 exhibiting companies, 8 supporting organisations, the conference brought together an unprecedented number of senior level, highly informed attendees, who between them drive the most exciting and important developments across waste to energy globally.

ATTENDANCE **BY INDUSTRY**

ATTENDEE **SENIORITY**

WHAT DID ATTENDEES THINK?

90% of attendees rated the programme as good, very good or excellent

91% of attendees are likely to recommend the conference to a colleague

"I felt it was a very useful conference, with beneficial content on developing projects in Middle East. The calibre of attendees was high, and good opportunity to network."

91% of attendees found that the conference met, exceeded or greatly exceeded their expectations

"My highlight and experience was the site visit because it has opened my insight in the way Waste to Energy Plant operate."

LOOKING AHEAD TO 2026

Energy from Waste
Middle East

23-24 November 2026 | Abu Dhabi

Registration Rates for Delegates

Pre-programme rate	**$795.00 + vat***
Special early bird rate	**$875.00**
Early bird rate includes conference dinner	**$995.00**
Standard delegate rate includes conference dinner	**$1300 + vat**
Dinner	**$45.00****

*Available until programme launch
** Only bookable with a delegate place
