ELECTRONIC MATERIALS

HITEK Electronic Materials Ltd Joins the Aeromed Group

Strategic acquisitions strengthen global
aerospace and defence capabilities

Announcement Overview

- HITEK Electronic Materials Ltd is now part of the Aeromed Group LLC, a leading global provider of supply chain solutions to the aerospace and defence industry.
- The announcement forms part of Aeromed Group's strategic expansion, which includes the acquisitions of several specialised companies across the aerospace and defence supply chain.
- These acquisitions strengthen Aeromed's global capabilities in advanced materials, legacy platform sustainment, and international logistics solutions.

Key Facts

- **Company:** HITEK Electronic Materials Ltd
- **Founded:** 1985
- **Location:** North Lincolnshire, England
- **Industry:** Advanced electronic materials for aerospace, defence, and high-reliability industries

Specialisms

- EMI/RF shielding materials
- Thermal management solutions
- Resin and polymer systems
- Advanced materials for demanding electronic and aerospace applications

Strategic Role

- HITEK forms the cornerstone of Aeromed International, supporting the group's presence across the UK, Europe, and global markets.
- The company bridges advanced material science with complex aerospace and defence applications.

Aeromed Group Acquisition Highlights

Aeromed Group has announced the acquisition of the following companies:

- **HITEK Electronic Materials Ltd** – Advanced electronic materials specialist (UK)
- **HITEK-nology Solutions Ltd (HSL)** – Corrosion control and environmental protection solutions (UK)
- **NorcaTec LLC** – Global defence supply chain partner for military platforms (USA)
- **NAPCO International LLC** – Military vehicle engineering, procurement, and logistics solutions (USA)
- **Kit Pack LLC** – Procurement network supporting refurbishment of legacy military aircraft (USA)

Group Scale and Capabilities

- The expansion adds 150+ employees to the Aeromed Group network.
- Aeromed now supports customers in over 70 countries.
- The group provides a wide range of solutions including:
 - Hard-to-source aerospace and defence hardware
 - Advanced electronic materials
 - Chemicals and high-performance protectants
 - Precision-engineered components
 - Mechanical assemblies
 - Inventory management and global logistics solutions

Important Information for Customers and Partners

- No changes will be made to the HITEK legal entity.
- Company addresses remain unchanged.
- HITEK personnel and operational teams remain the same.
- Customers will continue to work with the same contacts and teams they do today.

About Aeromed Group

Aeromed Group provides supply chain solutions to the global aerospace and defence industry, supporting OEMs and MRO organisations across commercial and defence sectors worldwide.

The group focuses on:

- Quality and compliance
- Advanced inventory management
- Forecasting and supply chain optimisation
- Custom kitting and mission-critical logistics

Quotes

Quote from Aeromed CEO

Bob Spence, CEO of Aeromed Group, commented:

"By adding the unique strengths of HITEK, HSL, NorcaTec, NAPCO, and Kit Pack to the Aeromed Group of companies, we are building a more resilient, versatile organisation."

Quote from HITEK Electronic Materials Ltd, Managing Director

Roger Dent, Managing Director of HITEK Electronic Materials Ltd, commented:

"Joining the Aeromed Group represents a strategic leap forward for HITEK, strengthening our capabilities in legacy platform sustainment and expanding our combined mission-critical product portfolio."

Quote from Aeromed International President

Chris Ravenscroft, President of Aeromed International commented:

"On behalf of everyone at Aeromed Group, I am delighted to welcome HITEK to our growing family of companies. HITEK brings exceptional expertise and a shared commitment to innovation that perfectly complements everything we stand for. Together, we will build on our collective strengths to deliver even greater value for our clients and partners. I look forward to everything we will achieve together."
