- 57 Most innovative product
- 59 RCI Project of the Year

Welcome to the Façade Awards UK 2025, celebrating the very best products and installations appearing across the UK built environment. It has been another busy year for the façades and roofing industry, with regeneration projects booming and ambitious housing targets to meet. This is resulting in high demand for expert projects across new homes and industrial units alike.

For this very reason, you will notice our usual New Build award has been split into commercial, residential and educational categories, in response to this unprecedented number of shortlisted entries. That said, competition was fierce across all 13 categories, and the judges had a tough task on their hands in picking out the top contenders. We are hugely grateful to our esteemed judging panel, who volunteered many hours of their time and expertise to examine all the technical details and end results before deciding on who the winners should be.

We would like to thank our industry sponsors, profiled in the following pages, and all those who entered this seventh ever Façade Awards UK event in Manchester. Without all this vibrant engagement occasions like this simply would not be possible.

For our contenders, making it as a finalist for the Façade Awards UK is a huge achievement in itself – so you more than deserve this day away from the tools and we hope you enjoy every moment regardless.

Our shortlists are packed with innovation and hard work, completing projects of all shapes and sizes on time and surpassing client expectations. You can read through the finalists in the following pages and scan the QR codes to find out even more about their stories online.

The entire RCI team, including events, editorial and commercial, is hugely excited to join you all today in celebrating excellence in façade and cladding design. We are here to help throughout the day, so don't hesitate to come and say hello – if we don't get to you first! Visit www.facadeawardsuk.com for further details as the 2025 winners are announced and make sure to use the hashtag **#FaçadeAwards** on X and LinkedIn.

MEET THE JUDGES

FAÇADE AWARDS UK

CLARE FENTON

Principle Façade Manager,
Wates Group

Clare Fenton has over 25 years of experience in the façades and building performance sectors, building a reputation for technical excellence and strategic leadership across the industry. Clare's entrepreneurial background is complemented by a deep understanding of façade systems, regulatory compliance, and performance-driven design, making her an asset in her current role as Principal Façade Manager at Wates. Until recently, Clare served a four-year term as Chair of the Metal Cladding and Roofing Manufacturers Association (MCRMA), where she played a pivotal role in steering the organisation towards a more progressive direction whilst still maintaining their technically focused approach. Clare remains a contributor to technical working groups and is an ambassador for the Joint Competency Initiative.

PETER JOHNSON

Chairman and Founder,
Vivalda Group

Peter Johnson has been involved in the construction sector since 1980 and is one of the most respected figures in the UK façade industry. Having been granted an RCI Outstanding Contribution Award in 2021, Peter has worked tirelessly to build the reputation of the cladding industry, while investing in the future of Vivalda Group, which he founded in 1999. Since then, the business has grown to become the UK's largest independent distributor and fabricator of high performance rainscreen cladding. The company employs more than 160 people across eleven locations in the UK and Ireland.

Vivalda Group is associated with well-known board and cladding brands such as Cedral, Equitone, Trespa, Rockpanel and Viroc. It also manufactures its own solid aluminium cladding product, MetSkin, and exclusively distributes Rieder GRC and Tonality terracotta cladding via its Pura Facades business, which specialises in technical advice and specification.

Through its MSP Facades business, the company also manufactures a range of bespoke metal cladding solutions, which are fully fire-tested.

JO FOULKES

Commercial Operations Manager,
Kingfisher Louvres

Jo Foulkes is the Commercial Operations Manager at Kingfisher Louvres, part of the Building Product Design/wienerberger group. With over 15 years of industry experience, she has played a pivotal role in delivering architectural louvre systems to a wide range of commercial projects across multiple sectors. Jo leads a multidisciplinary team committed to excellence in customer service and project delivery. Her career began in Internal Sales, and she remains deeply passionate about helping clients find the right solutions for complex project requirements and delivering these solutions to a high standard. Within the Building Product Design Group, Glidevale Protect, Kingfisher Louvres' sister company, are also active in the façade market, offering a range of Class A2 fire rated wall membranes for medium and high rise buildings.

BOB RICHARDSON

Head of Technical and Training,
NFRG

With 32 years of experience within the envelope industry, including 20 years at a senior level, Bob has an in depth, practical knowledge due to following a diverse career path. Starting on the tools, Bob moved through to working at director level for one of the largest independent installation companies that specialise in façade and roofing treatments, and for the last seven years has held the position of Head of Technical and Training with the UK's largest roofing and cladding federation, the National Federation of Roofing Contractors (NFRG). Bob is also current Chairman of WG2 Competency of Rainscreen Operatives, Chairman of British Standards Technical committee B/546 and sits on the Construction Industry Advisory Committee (CONIAC) Fire Safety Group.

Recently, Bob has been involved with the update of the Rainscreen façade and sheeting and cladding National Occupational Standards and is working with the Institute of Apprenticeships and Technical Education (IfATE) on updating the Trailblazer Apprenticeship standards.

BRICK SLIPS: TRADITIONAL LOOK, MODERN EASE

BUILDING BEYOND BOUNDARIES

Brick slips provide the perfect blend of tradition and innovation, offering an authentic brick appearance as well as the long-term durability associated with conventional bricks. When slips are incorporated into brick cladding systems, depending on the system, there can be many benefits:

- **Faster and more efficient** construction by simplifying the installation process
- **Exceptional durability** and weather resistance for a long-lasting façade
- **Endless creative design** capabilities that turn ordinary spaces into masterpieces
- **A greener future** thanks to a reduction in energy usage in the manufacturing process

MechSlip Brick Cladding System

An A1-rated and BBA certified through-wall mechanical fixed via an engineered support system is available in a wide range of real brick finishes.

NaturAL-X Brick Cladding System

An A1 and BBA certified, through-the-wall system incorporating purpose-made and through-coloured clay brick slips.

Gebrik Brick Cladding System

A B-rated, BBA-certified panelised insulating brick slip cladding system designed for direct installation on masonry, timber, or steel frame substrates for buildings up to 11 metres in height.

THE POWER OF PRODUCT PROMOTIONS

In this ever-changing landscape of the construction industry it is imperative RCI continues to deliver crucial and pivotal content to the roofing and cladding industry. One of the leading routes to market to achieve this is for our manufacturers and suppliers to supply us with their product releases so we can continue to deliver this to your target demographic.

HOW CAN A PRODUCT RELEASE HELP YOU ATTRACT YOUR POTENTIAL CUSTOMER?

1. Our readers can learn in depth technical knowledge from your article
2. Ensure best practice is adhered to
3. Keep ahead of new products being launched into the market
4. Supports ongoing professional development by offering valuable insights
5. Builds trust and authority, showcases your expertise and credibility, making customers more likely to choose your brand

To keep your business ahead of the curve, please submit your product release to Jessica Nobbs e: jessica.nobbs@markallengroup.com
