

## Prototyping & Testing

Our prototyping and testing services enable you to refine and validate your product designs, guaranteeing impeccable functionality, durability, and user satisfaction.

## Graphic Design

We can deliver powerful storytelling, effective data visualisation, and engaging brand communication through captivating graphics that leave a lasting impression.

## Design for Manufacture

Streamline your production process with our expertise in optimising your product's design for efficient and cost-effective manufacturing, ensuring high-quality results.

## CGI Visualisation

Bring your ideas to life with our rendering capabilities, showcasing your products in stunning virtual environments so you can market and present with impact.

Smallfry

## Strategy & Research

Exceed your goals with our strategic guidance and in-depth research, supporting you to make the right decisions for your business and unlock opportunities for success.

## Consumer Insights

We use sophisticated techniques to deeply understand your target audience's needs, wants, desires and behaviours to uncover invaluable insights and opportunities.

## Industrial Design

Our talented team combine form and function to create visually striking, user-centred designs that elevate your products and captivate your target audience.

## Mechanical Engineering

Harness our precision and expertise to develop robust and efficient mechanical systems that integrate seamlessly, ensuring your product excels in performance and reliability.
