Smarter business
solutions for fleet & fuel

● WELCOME

A better way forward

For decades, we've helped fleets move better. Whether it's single vans or some of the biggest and most complex operations in UK and Ireland.

So why do more than 50,000 businesses choose us?

Because many are juggling disconnected systems that make it harder to stay compliant, meet sustainability demands and keep their fleet fully protected. They're feeling the pressure of rising emissions reporting, evolving safety standards and the constant risk of blind spots or disputed claims. And they're tired of losing time and margin to wasted fuel, idling and manual admin.

We bring it all together; fuel, telematics, and cameras, into one connected platform with one clear view. Teams spend less time chasing information and more time moving the business forward.

Where most systems complicate things, Motia removes noise. We make it easier to see what matters, act quickly, and stay in control.

From rollout to results, we're here to make every day, and every mile, easier.

We hope this is the start of a better journey together.

Jenny McQuaid

Jenny McQuaid
Managing Director
Motia

a. better business

Motia is part of DCC, a FTSE 100 business with the scale and stability to support fleets for the long term.

Within DCC, we sit alongside respected brands like Certas Energy, Flogas and SNAP, giving our customers the reassurance of a strong partner with the agility of a specialist fleet provider.

DCC

A better way to streamline your operations

Everything connected.
Less complexity.
Faster work.

Idling, poor MPG and fuel fraud all drain profit. When incidents happen, slow access to camera footage creates delays and extra admin. Stop wasting time on manual paperwork and disconnected systems.

Benefits of Motia

- Connected cameras and telematics for **quick incident verification** via live view, playback and remote download.
- **Faster incident resolution**, less admin and lower operating costs.
- Direct insurer integration – **cut premiums** and improve safety.
- Reduced idling and improved MPG = **fuel savings**.
- Access to **discounted fuel prices** with HMRC compliant invoicing.
- **Simplified processes** for drivers to pay for fuel and EV charging.
- **Instant access** to driver, vehicle and fuel reports.
- **Integrated remote tachograph** downloads for easy compliance.
- **Driver App** that builds engagement and better habits.

“We’ve worked side by side with Hannon, building a strong and trusted partnership that delivers exceptional fleet solutions. When their fuel, vehicles, drivers and incidents sit together in one system, teams stop chasing data and start managing the fleet. And we’re always just a call or email away.”

Conor Patton
Sales Director
Motia

Delivering better results

Working with Hannon Transport, we helped reduce idle time by 50%, increased efficiency by **1 MPG saving £240,000 per year**. Insurance premiums were also reduced by 15%.

50% less

Idle time

15% lower

Insurance premiums

“Motia has consistently been a trusted partner as we’ve expanded across Europe over the last 20 years. They’ve boosted our operational efficiency and always found a way to integrate with our core systems and support us as we grow.”

Aodh Hannon
Managing Director
Hannon Transport

A better way to drive sustainability

We help you cut emissions, meet Net Zero and ESG commitments, and make greener decisions.

Without accurate CO₂ and NOx data, it's hard to hit Net Zero or meet customer requirements. That can put contracts at risk, and make new ones harder to win.

Benefits of Motia

- **CO₂ and NOx reporting** for every vehicle.
- **Insights** that link sustainability to cost savings.
- **Automated carbon reporting** powered by CANBus data.
- **Real-time dashboards** for emissions and fuel efficiency.

“When emissions, fuel and driving behaviour are captured together, sustainability becomes measurable, credible and manageable – without the extra admin.”

Tom Cosway
Head of Commercial
Motia

Delivering better results

By helping Essex Bulk Services make greener decisions, we were able to help them reduce their CO₂ emissions by 30%.

30% less

CO₂ emissions

25% lower

Fuel bill

“Out of all systems I’ve used, Motia is the best. The functionality is exactly what is required and provides all the insights needed to effectively manage our fleet.”

Amanda Duffy
Head of Compliance
EBS

A better way to protect your drivers and stay compliant

Safety that becomes part of your culture. Reducing risk and protecting your people is second nature.

Regulations move quickly, with Motia, you're always ready.

Benefits of Motia

- **Drivers** who feel supported, not monitored.
- **Reports** on speeding, harsh braking, and live tachograph driver hours.
- **Spot risky behaviour early**, so you can fix issues fast.
- **Fewer incidents** and stronger compliance with HGV and DVS standards.
- Motia's dashboards and insights uncover **driver training opportunities**.

“With Motia, one system captures the full picture so we can help you defend against claims, fraud and theft with clear evidence and total confidence.”

Craig Marsden
Product Director
Motia

Delivering better results

Motia has provided BM transport with a fully integrated solution covering telematics, cameras, compliance, and telecoms.

Provided cameras for:

**180
vehicles
500+
trailers**

“Motia’s cameras have proved invaluable, and we have saved thousands from being able to counteract insurance claims. If we are having any issues, all it takes is one message to Motia and everything is sorted from their brilliant customer service team.”

Barry Moore
Driver & Compliance
Manager BM Transport

A better way to protect your business

Motia can help your people, vehicles, brand, and your hard-earned reputation.

Without video evidence, you are vulnerable to third-party fraud and false liability claims. These disputes can lead to years of inflated premiums.

Benefits of Motia

- Live, playback and recorded video for **rapid dispute resolution**.
- Reduced fraud and false claims.
- **Improved security** and theft prevention.
- Integrated video and telematics.
- **Fuel monitoring** to detect suspicious activity.
- **Alerts** for out-of-hours use, geofencing and asset protection.

“There is a focus on First Notification of Loss, however, we also need to put a focus on First Notification of Risk and prevent the loss from happening in the first place.”

Dron Kyle
Risk Consultant
HDI

Delivering better results

By partnering with Motia and their insurer, Collett & Sons used Motia's driver behaviour insights to cut premiums by 10% and reduce claims frequency by 61%.

10% less

Insurance premiums

61% lower

Insurance claim frequency

“With Motia, I feel that they’re certainly more than just a provider. It really seems more of a partnership. In order to progress in business, you have to make the right decisions. That’s where Motia comes in for us. It was a good decision, and it’s paid for itself, and it’s made a huge impact in our own operations and our efficiencies.”

Dave Collett
Managing Director
Collett & Sons

A better way to view your operations

**One view.
No blind spots.
Decisions
you can trust.**

If your fuel, tracking and cameras don't talk to each other, you can't see the full picture. The gaps make it harder to prevent theft, recover assets and keep the fleet moving.

Benefits of Motia

- **One clear view** of your fleet, fuel, drivers, compliance and costs.
- **Predictable cost modelling** for better long-term planning.
- **Custom dashboards** for fleet, safety, compliance and finance teams.
- **Early risk** and trend detection.
- Tools for fleet growth and **investment planning.**

“When every team uses the same live data, decisions stop being debated and are made once, clearly, with confidence and trust.”

Adam Brown
Head of Operations
Motia

Delivering better results

We help FreshLinc protect their fleet with real-time visibility for 400+ vehicles and 1,000 trailers.

Real-time visibility for:

**400+
vehicles
1,000
trailers**

“Motia’s solutions allowed us to implement real-time monitoring compliance solutions that protect drivers, enhance safety, and ensure seamless fleet operations for Freshlinc.”

Ashley Holland,
Commercial
Director Freshlinc

Show up, Step Up & Stand Up

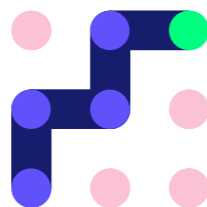

At Motia, we're proud of our people and our values. We think it's what sets us apart and makes us the better choice for businesses who share them.

We show up for our customers

We put our customers first. We never lose sight of what matters to you. Every product, every process and every promise has to deliver. With every decision we ask ourselves: does this make things better?

We step up to the challenge

We move fast, face what's hard, and find a way through. If we see it, we sort it, no waiting, no "not my job". Every challenge is a chance to get better, be sharper, go further.

We stand up for each other

We're at our best when we move together. That means being there for each other, sharing the load, keeping each other safe and supported, and holding the bar high. Always asking: are we pulling the same way?

Why choose Motia for your fleet

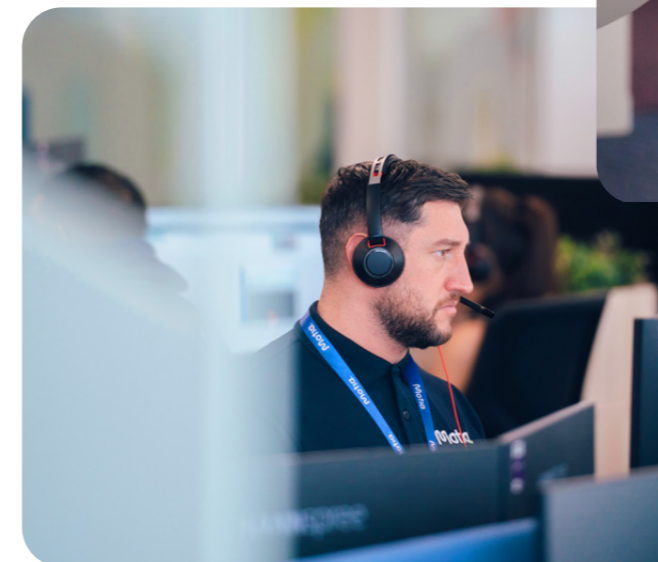

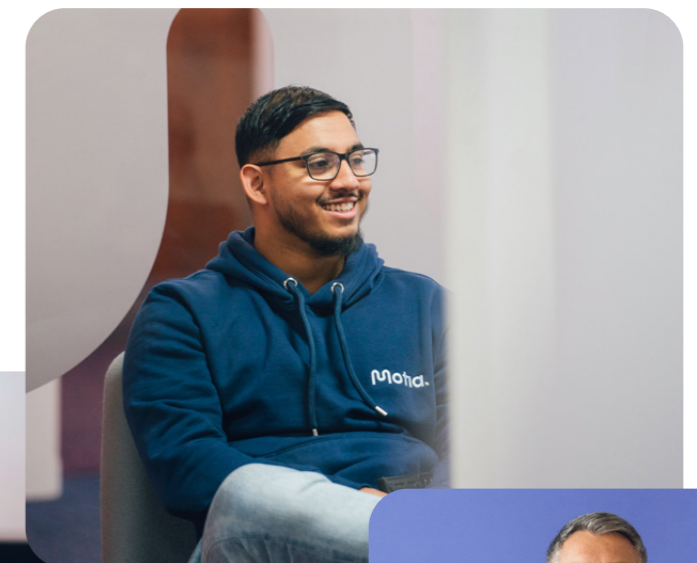

Real people. Real support. From teams in UK and Ireland who know fleets, and know how to keep them moving.

- The backing of **DCC plc** long-term stability with a personal, agile service.
- Over **300 fleet specialists** across 5 UK offices: Leeds, Burnley, Halifax, Bellshill and Antrim.
- **Dedicated account manager** who understands your fleet.
- **National field engineering network** for installation and maintenance.
