No more confusing test results!

Digital drug testing offers a range of advantages in comparison to traditional testing.

DrugStop SmartScan ensures objective, tamper-resistant results, which remove ambiguity and eliminates disputes between employer and employee.

The device automatically analyses the drug tests, and results are displayed in a matter of minutes.

What drugs are detected?

DrugStop SmartScan Pro 9 Saliva Drug Test Kit:

Benzodiazepines (BZO), Delta-9-tetrahydrocannabinol (THC/Cannabis), Amphetamines (AMP), Cocaine (COC), Opiates (OPI), Methamphetamine (MET), Methadone (MTD), Ecstasy (MDMA), Ketamine (KET).
