GRN Search Group specialise in Supply Chain Recruitment and cover the UK & Ireland.

A woman wearing a white hard hat and an orange safety vest over a light blue shirt is holding a walkie-talkie to her mouth with her right hand and a clipboard with her left hand. She is looking upwards and to the right. The background is a dark industrial interior with some light coming from the right side.

We cover 4 main sectors:

- Transport & Logistics
- Distribution & Storage
- Freight & Customs
- Procurement & Supply Chain

Our Process

What makes us different? We're better at accessing talent. We're better at assessing and managing skillsets. We're better at matching the right individual to the job not just on a skill basis, but also from a motivational perspective.

The path to a successful hire starts with you, the Employer. A detailed conversation with one of our Specialist Consultants and your Hiring Manager is required to gain an in depth understanding of the person, skills and objectives required by your business. We can then consult with you regarding the available Talent.

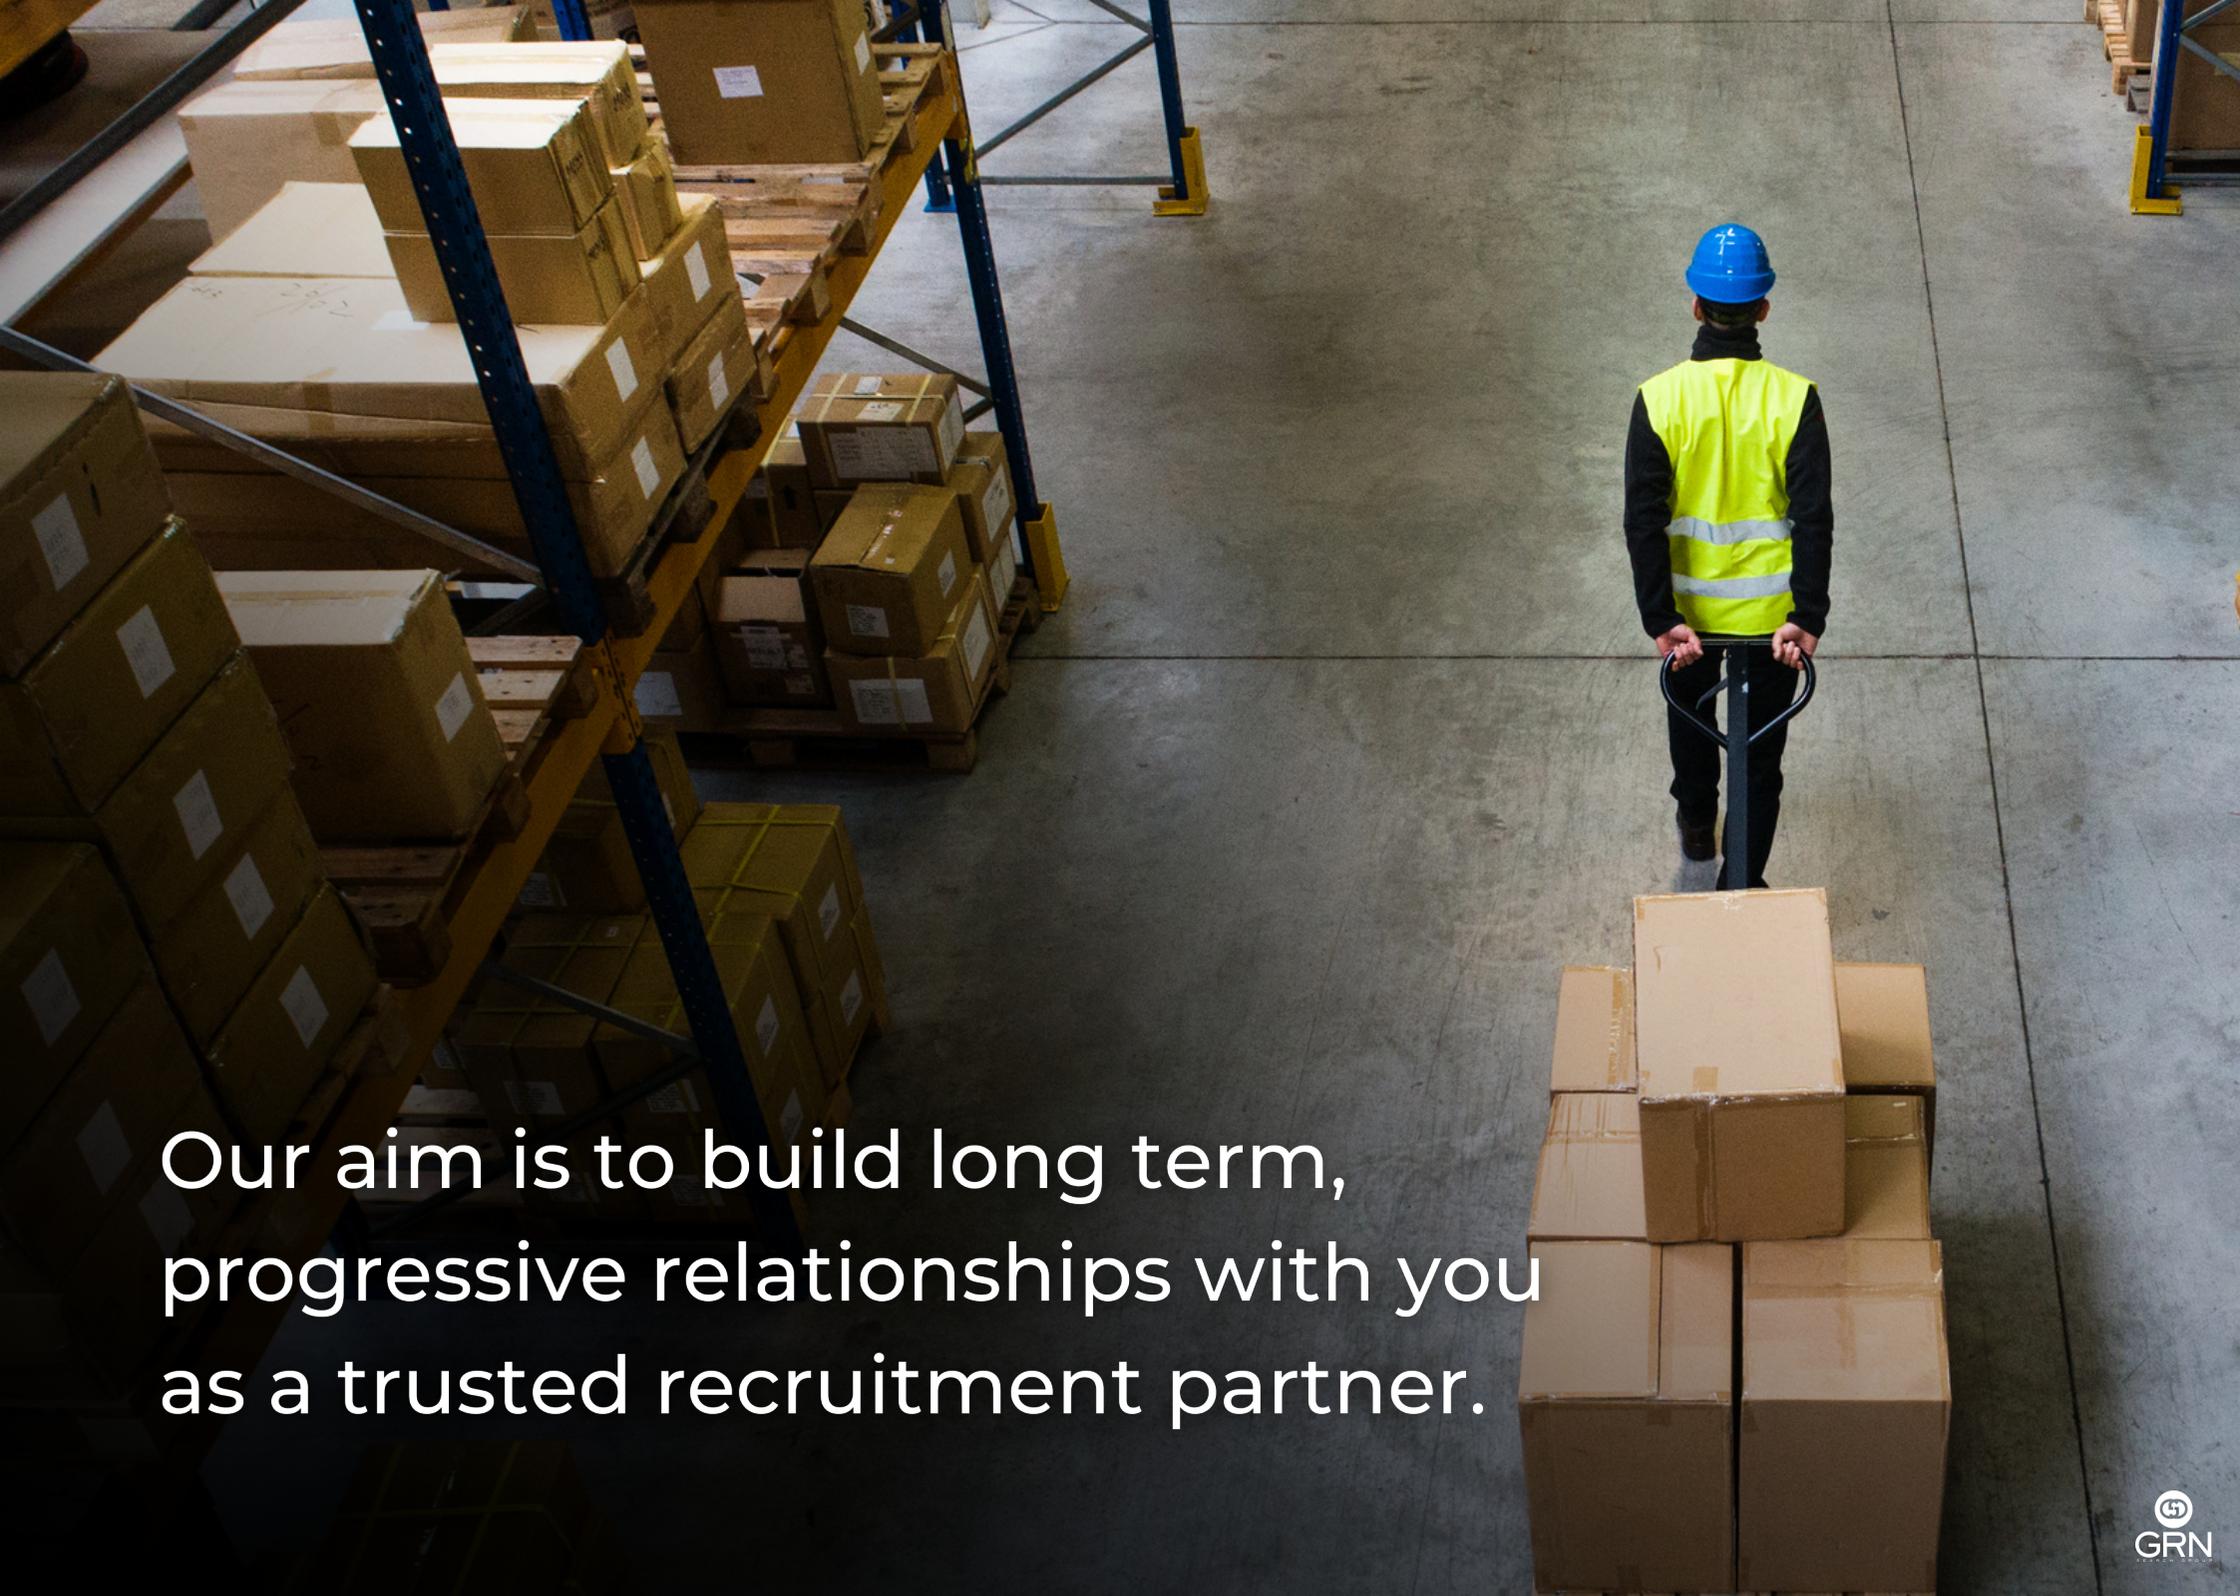

We pro-actively recruit from a broad range of sourcing channels and continuously interview and assess Talent nationwide. With an extensive talent pool of registered and interviewed candidates at our fingertips, we have access to in-demand individuals who can step in and contribute to your business right away.

Upon sourcing the best Talent available, we manage the complete process from Vacancy onboarding right through to start date and the following transitionary period.

Our aim is to build long term,
progressive relationships with you
as a trusted recruitment partner.
