INFRASTRUCTURE

The manufacturing infrastructure of Group Companies (8) is spread over 90 acres of land with a built-up area of more than 1,00,000 sq. mts. The facilities consist of Raw material warehouses, Wash lines sections, spinning section, Draw line sections, Sorter sections – bottles / flakes, Glycolysis plant, Extruders, Tape Lines & Looms, Lamination section, Stitching, FIBC Bag Section, Printing, Spindle Lines, Boiler & TFH sections, Quality control (to perform strict quality checks at all stages during the entire manufacturing process) & R & D department, Electrical departments, Store section, Utility, STP, Parking, DG sets for power backup of more than 12 MW (for uninterrupted operations and prompt deliveries) and administrative blocks as main sections. We have ETP with UF and R.O. plants for 100% recycling of processed water to maintain a Zero Liquid Discharge (ZLD) across all our units. Sufficient number of transport aids like cars, LCVs, tractors, fork lifts, bulls etc. have been procured by the company for routine handling of materials and goods.

The Group has strong network of partners & own Collection centres to collect Post Consumer and Post Industrial waste for all plastic types. We are a family of more than 3000 people who are putting joint efforts for a better planet. The Goenka family also operate “Goenka welfare Society” for CSR and CER works. We have also developed accommodation facilities for our employees & workers.

We have a number of Clients associated with us since couple of decades and enjoy advanced sales for our products.

PRODUCT FOOTPRINT

Kashipur, Uttarakhand

- ⦿ Woven Fabrics (Virgin / Recycled 30% content)
- ⦿ Calcium Fillers & Color Masterbatches
- ⦿ HDPE/PP Packaging Bags (Virgin / Recycled 30% content)

Pashupati Laminators Pvt. Ltd.

Pashupati Polytex Pvt. Ltd.

Kashipur, Uttarakhand

- ⦿ rPSF: Hollow - Silicon/ Non-Silicon/ Silky, Conjugated Fiber - Silicon/ Non Silicon
- ⦿ Speciality Fibres - Anti-bacterial, Fire Retardant, P-Concret™ (Reinforcement), Micro Fiber
- ⦿ Maco Fibre
- ⦿ PP Fibre
- ⦿ rPET Flakes - Natural / Green / Brown / Mix
- ⦿ Recycled PET Chips - Food Grade (Textile / B2B / Thermoforming)

Kashipur, Uttarakhand

- ⦿ PET Masterbatches Black (Virgin / Recycled)

Shree Ram Polymers

Pashupati Extrusion Pvt. Ltd.

Kashipur, Uttarakhand

- ⦿ Recycled PET Chips (Non Food-Grade)
- ⦿ Recycled Polyolefin Granules - (Non Food-Grade)
- ⦿ Recycled Polyolefin Granules - **Food-Grade**

Bhilwara, Rajasthan

- ⦿ Synthetic Yarns (Virgin / Recycled)

SRM Spinners Ltd

Kundana Techno Tex Pvt. Ltd.

Hyderabad, Telangana

- ⦿ Recycled PET Flakes

Jaipur, Rajasthan

- ⦿ Woven Fabrics
- ⦿ FIBC Bags (Virgin / Recycled 30% content)
- ⦿ HDPE/PP Packaging Bags (Virgin / Recycled 30% content)

Salasar Techno Tex Pvt. Ltd.

Saurabh Clean Tech Pvt. Ltd.

Bhiwadi, Rajasthan

- ⦿ Recycled Polyolefin Flakes & Granules (Non Food-Grade)

A RESPONSIBLE ORGANISATION

Certifications secured by Pashupati by issuing authorities for varied facets as below:

MILESTONES

Some dots in the journey that have added to our meaningful existence. We consider milestones as a measure of our progress and acts as a guardian of our path forward.

2000

Established Pashupati Agencies for import and export of various commodities, real estate, mining and more

2008

Established Pashupati Laminators Pvt. Ltd. for woven fabrics, tarpaulin and bags with an initial production capacity of 14,400 MTPA. Current capacity being 35,000 MTPA.

2009

Established Pashupati Polytex Pvt. Ltd. for recycled polyester staple fibre and rPET flakes with an initial capacity of 14,000 MTPA. Current capacity being 83,000 MTPA.

2010

Capacity expansion in Pashupati Laminators Pvt. Ltd. and Pashupati Polytex Pvt. Ltd.

2012

Established Shree Ram Polymers for PET masterbatches

2014

Established SRM Spinners Ltd. for synthetic yarn with an initial capacity of 12,890 spindles. Current capacity being 18,046 spindles.

2017

Established Pashupati Extrusion Pvt. Ltd. for rPET chips with an initial capacity of 11,000 MTPA. Current capacity being 22,600 MTPA.

2019

Established a waste management vertical

2020

Established Kundana Techno Tex Pvt. Ltd. for rPET flakes 54,000 MTPA

2021

- Established Saurabh Clean Tech Pvt. Ltd. for recycled PP/PE/LLDPE/BOPP/ PVC flakes and granules with a capacity of 10,800 MTPA.
- Established Salasar Techno Tex Pvt. Ltd. for woven fabrics with a capacity of 18,000 MTPA

2022

- Diversification of Pashupati Extrusion Pvt. Ltd. into Recycled Polyolefin Granulation – Non Food Grade
- Diversification of Pashupati Laminators into all types of bags
- Diversification of Pashupati Polytex Pvt. Ltd. into recycled food grade chips (FDA & EFSA approved) 21,600 MTPA (Upcoming)
- Diversification of Pashupati Extrusion Pvt. Ltd. into Recycled Food Grade Polyolefin Granulation (14,000 MTPA) (Upcoming)

AWARDS

2010

Best Supplier Award from
Tata Chemicals Limited

2011

CONCOR EXIM Star Award for
Enhanced Performance Importer
in the Northern Region

2011

CONCOR EXIM Award for
Emerging Customer Importer
in the Northern Region

2015

CONCOR EXIM Star Award - A Special
Award in the Importer Category
in the Northern Region

2020

Company of the Year Award by
Business connect - For Admirable Growth
and Differentiating Factors

2021

Iconic Achievers Award by **Forbes India**
for Leaders in Plastic Recycling Industry

2022

1st Winner in Plastic Recycling
Champion 2022 of the year
Award by PRCA 2.0

3rd Winner in Best Recycled or
Up-Cycled product of the year
Award by PRCA 2.0

Outstanding Work in
Circularity by ICEF

Global Diamond Business Excellence
Award by MSMECCII

I take you through the journey of Pashupati, a journey that I look back with immense satisfaction!

Trading began in late 1970s, however, it was in 2008 that we entered into the arena of manufacturing – woven fabrics and sacks was our initial foray. Here began our journey to learn and grow...and so we did! Our initial investment, was Rs. 160 Million, the turnover being Rs. 440 Million; processing capacity being 16,700 MTPA. We followed the principal of a very close connect with customers to fathom successfully... What he wants? How much does he want? When does he want?

We thus grew our products (rPSF, rPET flakes, rPET chips, masterbatches, yarns etc.) and explored markets...to reach where we are today, with the group's investment of Rs. 6,000 million delivering a turnover of Rs. 11,000 million with a processing capacity of around 2,00,000 MTPA; a 14-fold growth in 14 years! Our offerings include PET bottles to flakes, flakes to fibre, fibre to yarns, technical textile products, packaging solutions, masterbatches, rPET chips etc.

To most, CSR is a division; for us, it is our business itself; we today recycle close to 12 million PET bottles and around 3 million polyolefin bottles each day.

I sign off sharing with you our next milestone to achieve a turnover of Rs. 15,000 million with a processing capacity of 3,00,000 MTPA by 2024.

Best Wishes,

Vishnu Prakash Goenka
