

VISCOBOOST IMPROVING INTRINSIC VISCOSITY FOR PET PACKAGING APPLICATIONS

A big concern in using PET after its first life is how it will process in subsequent lives. That's where Holland Colours' ViscoBoost comes in. Available in a solid Holcomaster format, ViscoBoost helps improve the intrinsic viscosity of PET. So if you're looking for a reliable and consistent IV-improving product along with world-class technical support, look to Holland Colours' ViscoBoost. We've got you covered in processing again and again.

FOCUSED SOLUTION

Maintaining intrinsic viscosity is a major concern when it comes to using rPET. The stresses of processing, heat, and shear can cause polymer chains to shorten, changing the integrity of the polymer. But through the addition of Holland Colours' ViscoBoost, the polymer structure can be rebuilt, enabling it to meet the demands of your application once again.

SUITABLE FOR FOOD PACKAGING

Holland Colours' ViscoBoost is FDA compliant so it offers a very wide range of usage options. Whether you're creating drink bottles or food trays, you can rest assured that your product meets the most stringent food packaging safety qualifications.

ALONE OR WITH COLORANTS

You can use ViscoBoost as a standalone product or combine it with other Holland Colours colorants and additives. It fits your IV enhancing needs right out of the box.

NO SPECIAL EQUIPMENT NEEDED

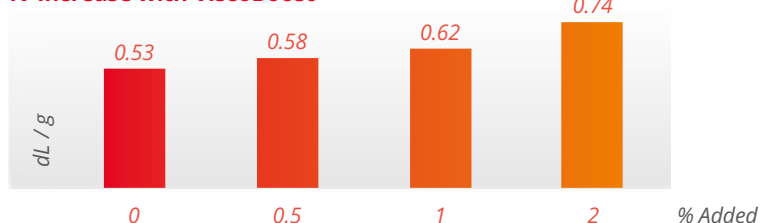

ViscoBoost works with standard single/twin screw extruders and with gravimetric/volumetric dosing units, incorporating at standard processing temperatures - no special setup or changeover downtime is needed.

PROJECT SUPPORT

As a global specialist in customer-specific coloring products and cutting-edge additives, we have been revolutionizing the packaging market for over forty-five years. ViscoBoost is just part of this journey. Contact us to see what our next big step can be together.

IV Increase with ViscoBoost

VISCOBOOST BENEFITS AT A GLANCE

- ✓ Developed specifically for PET
- ✓ Processing improvement for rPET
- ✓ Excellent clarity with or without color
- ✓ Can be dosed directly online
- ✓ Solid format

VISCOBOOST

Improving the intrinsic viscosity of rPET in packaging applications.
