

7th January 2021

Dear Duncan

In the ever-changing world that we find ourselves in, we have all learned to be flexible in how we conduct ourselves and our businesses. In this regard the PMMDA applauds Rapid News for working closely with their partners and stake holders to arrive at the decision to defer the date of the Interplas exhibition to its' traditional September dates and move forward to September 2021.

With so many global exhibitions cancelled over the last 12 months, PMMDA and its' members will look forward to meeting up with their customers and partners, within a safe environment, at the UK plastics industry's show case event in September 2021. We'll also welcome our members to PMMDA's 55th Annual General Meeting which will be held on the second day of the show.

PMMDA maintains a close working relationship with the organisers in order that we have an event that celebrates the best that the UK plastics industry has to offer. We extend our continuing support and hope that everyone stays safe and well.

Richard Hird
Chairman
