

LIVING LOGISTICS

MOVING GROCERIES

READY FOR THE OMNICHANNEL FUTURE OF GROCERY RETAIL?

Busy trying to find the right answers to deal with current trends and challenges, changing lifestyles, food fashions, ethical, healthy & sustainable products to name just a few? Are customer service levels demanding the need for quicker online deliveries, omnichannel capabilities and convenient last mile solutions? Are your current internal logistic operations able to cope with increasing demand? Are you considering updating your current operations or exploring options for a new fulfilment centre?

A key element for success is a robust, flexible but more importantly, an efficient supply chain. For this you need a strong and experienced intralogistics automation partner that understands you and your business needs and can provide a full service from initial consultation through to, and including, ongoing support and maintenance packages to suit your needs. TGW are ready to support you on your journey.

Robotic Pick Station „Revolution“

STORE-BASED RETAIL

- Get more throughput out of your existing DC footprint
- Lower the cost per item handled
- Reduced staffing requirements
- Improve service levels by store-optimised replenishment
- Support growth of small format stores
- Handle a growing SKU portfolio efficiently (fresh/chilled/frozen)
