

PROFITABLE FULFILMENT

# MEAT THE WAREHOUSE AUTOMATION EXPERTS

## READY FOR THE FUTURE OF FRESH?

Consumers look for great quality food. Changing lifestyles and different retail channels lead to a growing number of packaging sizes and varieties, which adds complexity to your process and operation. Is your warehouse operation/process prepared to meet those needs efficiently? Are your service levels fulfilling the demands of consumers and business partners? Do you provide an attractive workplace to retain your workforce?

TGW understands your business needs and provides consultative support for optimizing your processes by implementing the right level of automation. We strive to become your partner of choice providing support to fulfil your future ambition.

### PROVIDING FRESH FOOD & GREAT SERVICE

- Guarantee freshness by shortest order lead times
- Serve retailers, wholesalers and food service companies with improved service levels
- Eliminate errors typical of manual picking systems
- Highest levels of accuracy and full traceability of products
- Reduce the cost per unit processed
- Improve truck loading by sequencing of outbound pallets

### TEMPERATURE CONTROLLED

- Modular and flexible solutions for automated case picking
- Multiple palletizing options for single and mixed SKU pallets

- Integration of value added services like labelling
- Compact footprint
- Simple software integration
- Optimise human well-being and overall system performance by improved ergonomics

### BECOME FUTURE PROOF

- Maximum product and service flexibility to meet future needs
- Reduced staffing dependency
- Robust and safe operation
- Highly scalable

### TRUSTED PARTNER

TGW is a trusted partner of leading grocery retailers and producers for more than 20 years. Have a look at some projects:
