Evacuation Chair Servicing

All makes and models

All makes and models Evacuation Chair Servicing

Safety Chair provides high quality evacuation chairs which are designed and manufactured with the highest medical standards in mind. As a Class 1 medical device PUWER regulations require your Safety Chair is ready to use and remains in the very best condition. After all, you never know when you might really need your evacuation chair.

Servicing is of the utmost importance and should be completed annually. At Safety Chair we offer a fixed cost service programme which guarantees that your evacuation chair is always in good working order.

PROGRAMME INCLUDES

A visit every 12 months by a certified service engineer who will conduct the following:

- 24 point inspection
- Replacement of worn parts
- Certificate of service
- Service label on your evacuation chair

PROCESS

Our certified service engineer will visit at an agreed date and time equipped with all the tools necessary to complete the service of the evacuation chair. After the service has been completed we can provide either a physical or digital copy of your service engineer visit.
